TQB0E2279

Features

Smart VIERA
Digital smart life to create new and exciting TV experiences (Networking / Easy Operation / Picture Quality / Eco / Design).

3D technology
You can enjoy viewing 3D images on this TV by wearing the 3D Eyewear.

ReaID 3D
This TV and 3D Eyewear use the 3D technology of RealD. RealD is one of the inventors in 3D technology.

freesat HD tuner built-in [UK only]
This TV has a built-in freesat HD tuner. freesat is a free digital TV service which broadcasts via satellite so you can receive TV, radio, interactive TV, and HD TV with crystal clear reception.

DVB-T tuner built-in
Receives DVB (Digital Video Broadcasting) digital terrestrial broadcasts.

DVB-T2 tuner built-in [UK only]
DVB-T2 is an advanced digital terrestrial system for more efficient transmission.
Available DVB-T2 broadcasts will be tuned automatically when you perform DVB Auto Setup.

Using USB devices
Enjoy recording and playback the digital TV programmes to the USB HDD. (p. 70, 79)
Enjoy the photo, video and music in the USB Flash Memory on Media Player. (p. 73)
USB keyboard, gamepad, etc. are available. (p. 108)

Timer Programming (p. 27, 60)
Timer Programming enables you to use functions such as programme reminder and programme recording to the external recorder or formatted USB HDD.

SDXC Card
This TV supports SDXC Card. SDXC is the latest standard of SD Card and a higher storage capacity card.

DLNA
DLNA is a standard that makes digital electronics easier and more convenient to use on a home network. (p. 88)

VIERA Connect - Enjoy great web entertainment (p. 20, 91)
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, EPG, communication tools, etc. from VIERA Connect home screen.

Link up and control the connected equipment with "Q-Link" and "VIERA Link" (p. 92)
Q-Link and VIERA Link provide easy recording and playback, creation of a home theatre without complicated settings, etc.

VIERA TOOLS - Display special feature icons for easy accessibility (p. 39)
Special features (such as VIERA Link and Media Player) can be accessed easily by using the VIERA TOOLS button.

Dolby Digital Plus / Dolby Pulse decoders
It is possible to decode Dolby Digital Plus / Dolby Pulse multi-channel audio tracks and output as Dolby Digital Bitstream (multi-channel sound signal) from DIGITAL AUDIO OUT / HDMI2 (ARC function) terminals.

Owner ID (p. 64)
Owner ID is an anti-theft function. Entering the PIN number and owner's personal information will help the Police to determine the owner in the case of theft.

Voice Guidance (p. 23, 44)
Voice Guidance narrates the operation of the basic features (EPG, on-screen messages, etc.) to assist visually-impaired users.

Supports Audio Description signal (p. 23, 44)
Audio Description (when broadcast) adds an additional soundtrack to describe events on screen (narration) and aids understanding and enjoyment, particularly for visually-impaired users.

Digital Switchover for Terrestrial broadcasts [UK only]

Starting in late 2007 and ending in 2012, TV services in the UK will go completely digital, TV region by TV region.
If you have any questions, please call Digital UK on **08456 50 50 50** or visit **www.digitaluk.co.uk**
Digital Switchover will cover a period of several weeks. When it starts you will lose all Analogue TV channels and some Digital TV channels will be missing.
You will need to retune your TV each time this happens to recover your digital channels. Analogue channels are permanently turned off, it will not be possible to recover them.
● To retune your TV ➡ [Auto Setup] in [DVB Tuning Menu]-DVB mode (p. 53)
Users of cable or satellite boxes should still retune the TV to continue to receive Freeview channels via their aerial. (Your Analogue channel for viewing Cable or Satellite services will change to a new position.)

● Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.

2

Transport only in upright position

Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we disclaim any liability or damage arising from operation and/or performance from usage of such other maker's peripheral devices.

The recording and playback of content on this or any other device may require permission from the owner of the copyright or other such rights in that content. Panasonic has no authority to and does not grant you that permission and explicitly disclaims any right, ability or intention to obtain such permission on your behalf. It is your responsibility to ensure that your use of this or any other device complies with applicable copyright legislation in your country. Please refer to that legislation for more information on the relevant laws and regulations involved or contact the owner of the rights in the content you wish to record or playback.

This product is licensed under the AVC patent portfolio license for the personal and non-commercial use of a consumer to (i) encode video in compliance with the AVC Standard ("AVC Video") and/or (ii) decode AVC Video that was encoded by a consumer engaged in a personal and non-commercial activity and/or was obtained from a video provider licensed to provide AVC Video. No license is granted or shall be implied for any other use.

Safety Precautions

Warning

■ Mains plug and lead

To help avoid risk of electrical shock, fire, damage or injury, please follow the warnings below:

- This TV is designed to operate on AC 220-240 V, 50 / 60 Hz.
- Insert the mains plug fully into the socket outlet.
- Ensure that the mains plug is easily accessible.
- Remove the mains plug when cleaning the TV.

- Do not touch the mains plug with a wet hand.

- Do not damage the mains lead.

  - Do not place a heavy object on the lead.

  - Do not place the lead near a high temperature object.

  - Do not pull on the lead. Hold onto the mains plug body when disconnecting the plug.

  - Do not move the TV with the lead plugged into a socket outlet.
  - Do not twist the lead, bend it excessively or stretch it.
  - Do not use a damaged mains plug or socket outlet.
  - Ensure the TV does not crush the mains lead.
- Do not use any mains lead other than that provided with this TV.

If you detect anything unusual, immediately switch off the mains supply switch and remove the mains plug.

**AC 220-240 V
50 / 60 Hz**

IMPORTANT: THE MOULDED MAINS PLUG

FOR YOUR SAFETY, PLEASE READ THE FOLLOWING TEXT CAREFULLY.

This TV is supplied with a moulded three pin mains plug for your safety and convenience.
A 5 amp fuse is fitted in this mains plug. Shall the fuse need to be replaced, please ensure that the replacement fuse has a rating of 5 amps and that it is approved by ASTA or BSI to BS1362.

Check for the ASTA mark ⬦ or the BSI mark ▽ on the body of the fuse.
If the mains plug contains a removable fuse cover, you must ensure that it is refitted when the fuse is replaced.
If you lose the fuse cover the mains plug must not be used until a replacement cover is obtained.
A replacement fuse cover may be purchased from your local dealer.

Do not cut off the mains plug.
Do not use any other type of mains lead except the one supplied with this TV.
The supplied mains lead and moulded plug are designed to be used with this TV to avoid interference and for your safety.
If the socket outlet in your home is not suitable, get it changed by a qualified electrician.
If the plug or mains lead becomes damaged, purchase a replacement from an authorized dealer.

How to replace the fuse
For plug type shown in example 1:
Lift out the removable fuse compartment with a screwdriver and replace the fuse, then refit securely into the mains plug (see example 1).
For plug type shown in example 2:
Lift open the fuse compartment, in the mains plug, with a screwdriver, and replace the fuse, then press the fuse cover down securely (see example 2).

Example 1

Example 2

Warning

■ Take care

To help avoid risk of electrical shock, fire, damage or injury, please follow the warnings below:

● Do not remove covers and never modify the TV yourself as live parts are accessible when they are removed. There are no user serviceable parts inside.

● Do not expose the TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

● Do not expose the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.
● Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base.

● Do not insert foreign objects into the TV through the air vents.
● Do not use an unapproved pedestal / mounting equipment. Be sure to ask your local Panasonic dealer to perform the setup or installation of approved wall-hanging brackets.
● Do not apply strong force or impact to the display panel.
● This TV is designed for Table-top use.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

---

■ Small object

This product contains possibly dangerous parts that can be breathed in or swallowed by young children accidentally.

● Keep the dangerous parts out of reach of young children.
● Do not allow children to handle SD Card. As with any small object, the SD Card could be swallowed by young children. Please remove SD Card immediately after use and store out of reach of young children.

■ Radio waves

● Do not use the TV in any medical institutions or locations with medical equipment. Radio waves from the TV may interfere with the medical equipment and cause accidents due to the malfunction.
● Do not use the TV near any automatic control equipment such as automatic doors or fire alarms. Radio waves from the TV may interfere with the automatic control equipment and cause accidents due to the malfunction.
● Keep the distance at least 22 cm from the built-in wireless LAN part when you have a cardiac pacemaker. Radio waves from the part may interfere with the operation of the pacemaker.
● Do not disassemble or alter the built-in wireless LAN in any way.

Caution

■ Ventilation

Allow sufficient space around the TV in order to help prevent excessive heat, which could lead to early failure of some electronic components.

Minimum distance

- Ventilation should not be impeded by covering the ventilation openings with items such as newspapers, tablecloths and curtains.

- Whether you are using the pedestal or not, always ensure the vents in the bottom of the TV are not blocked and there is sufficient space to enable adequate ventilation.

10

10   10   10

(cm)
■ Moving the TV

Before moving the TV, disconnect all cables.

■ When not in use for a long time

This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

- Remove the mains plug from the wall socket when the TV is not in use for a prolonged period of time.

■ Excessive volume

Do not expose your ears to excessive volume from the headphones. Irreversible damage can be caused.

■ Built-in wireless LAN

- To use the built-in wireless LAN, an access point needs to be obtained.
- Do not use the built-in wireless LAN to connect to any wireless network (SSID*) for which you do not have usage rights. Such networks may be listed as a result of searches. However, using them may be regarded as illegal access.
  *SSID is a name for identifying a particular wireless network for transmission.
- Do not subject the built-in wireless LAN to high temperatures, direct sunlight or moisture.
- Data transmitted and received over radio waves may be intercepted and monitored.
- The built-in wireless LAN uses 2.4 GHz and 5 GHz frequency bands. To avoid malfunctions or slow response caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves, mobile phones and the devices that use 2.4 GHz and 5 GHz signals when using the built-in wireless LAN.
- When noises occur due to the static electricity, etc., the TV might stop operating for the protection of the devices. In this case, turn the TV off with Mains power On / Off switch, then turn it on again.
- Additional information for built-in wireless LAN and access point may be on the following website.
  http://panasonic.jp/support/global/cs/tv/

Bluetooth® wireless technology

- The TV uses the 2.4 GHz radio frequency ISM band (Bluetooth®). To avoid malfunctions or slow response caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, other Bluetooth devices, microwaves, mobile phones and the devices that use 2.4 GHz signal.

   minimum 6 mm
   maximum 8 mm
Diametre: M8
Screw for fixing the TV onto the wall-hanging bracket (not supplied with the TV)

(View from the side)
> **Warning**

● Failure to use a Panasonic bracket or choosing to mount the unit yourself will be done at the risk of the consumer. Always be sure to ask a qualified technician to carry out set up. Incorrect fitting may cause equipment to fall, resulting in injury and product damage. Any damage resulting from not having a professional installer mount your unit will void your warranty.
● When any optional accessories or wall hanging brackets are used, always ensure that the instructions provided are followed fully.
● Do not mount the unit directly below ceiling lights (such as spotlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
● Take care when fixing wall brackets to the wall. Wall mounted equipment shall not be grounded by metal within the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
● To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

3D Eyewear
- TY-ER3D4ME
- TY-ER3D4SE

- If you need 3D Eyewears, please purchase this optional accessory.
- Use Panasonic 3D Eyewear supporting Bluetooth wireless technology.
- For more information:

Communication Camera
- TY-CC20W

- This camera can be used on VIERA Connect (p. 20, 91).
- Depending on the area, this optional accessory may not be available.
  For details, consult your local Panasonic dealer.

Installing / removing remote's batteries

1

Pull open

Hook

2

Close

Note the correct polarity (+ or -)

Caution
- Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
- Do not mix old and new batteries.
- Replace only with same or equivalent type. Do not mix different battery types (such as alkaline and manganese batteries).
- Do not use rechargeable (Ni-Cd) batteries.
- Do not burn or break up batteries.
  Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- Make sure you dispose of batteries correctly.
- Ensure batteries are replaced correctly, there is danger of explosion and fire if battery is reversed.
- Do not disassemble or modify the remote control.

Attaching / removing the pedestal

Warning

Do not disassemble or modify the pedestal.
- Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution

Do not use any pedestal other than the one provided with this TV.
- Otherwise the TV may fall over and become damaged, and personal injury may result.
Do not use the pedestal if it becomes warped or physically damaged.
- If you use the pedestal while it is physically damaged, personal injury may result. Contact your local Panasonic dealer immediately.
During set-up, make sure that all screws are securely tightened.
- If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.
Ensure that the TV does not fall over.
- If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.
Two or more people are required to install and remove the TV.
- If two or more people are not present, the TV may be dropped, and personal injury may result.
When removing the pedestal from the TV, do not remove the pedestal by the methods other than the specified procedure. ➡ (p. 10)
- Otherwise the TV and / or pedestal may fall over and become damaged, and personal injury may result.

■ Preparations

Take out the pedestal and the TV from the packing case and put the TV onto a work table with the screen panel down on the clean and soft cloth (blanket, etc.)
● Use a firm table bigger than the TV.
● Do not hold the screen panel part.
● Make sure not to scratch or break the TV.
■ Assembling the pedestal

Attach the bracket Ⓓ to the tabs of the top of the base Ⓕ and fix with assembly screws Ⓐ
● Forcing the assembly screws the wrong way will strip the threads.
● Hold the bracket not to fall over.

Tabs (top)

Front
■ Securing the TV

1 Attach the pedestal
tabs

Align the 3 tabs on the bracket with the grooves on the back of the TV and insert them.
Make sure the centre tab is in the hole of the TV. Slide in the bracket aligning the arrow marks (↓↑) on the TV and the bracket.

Tighten the 4 assembly screws Ⓑ loosely at first, then tighten them firmly to fix securely.

2 Attach the cover

Attach the cover Ⓔ and fix securely with assembly screws Ⓒ.

9
■ Moving the TV

Hold the specified parts as shown to stand the TV up and move it with two people.
Removing the pedestal from the TV
Be sure to remove the pedestal in the following way when using the wall-hanging bracket or repacking the TV.

1 Put the TV onto a work table with the screen panel down on the clean and soft cloth.
2 Remove the assembly screws Ⓒ from the cover.
3 Remove the assembly screws Ⓑ from the TV.
4 Remove the pedestal from the TV.
5 Remove the assembly screws Ⓐ from the bracket.

Adjusting the panel to your desired angle
● Do not place any objects within the full rotation range.

15°
15°
(View from the top)
Preventing the TV from falling over (TX-L42DT50B, TX-L47DT50B)

Using the fall-prevent screw hole and a screw (commercially available), securely fix the body of the pedestal to the installation surface.
● The place where the pedestal is to be fixed should be thick enough and made of hard material.

Screw (not supplied)
Diametre: 3 mm
Length: 15 - 20 mm

Screw hole

Using "VIERA Connect"

VIERA Connect is a gateway to the internet services unique to Panasonic.
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, EPG, communication tools, etc. from VIERA Connect home screen.
● This TV does not support full web browser function and some features of the websites may not be available.
1 Turn power on

● Press for about 1 second.
● Mains power On / Off switch should be on. (p. 12)

● Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

> Enjoy selected internet content with VIERA Connect. Simply press the OK / INTERNET button
2 Access VIERA Connect

While the banner is displayed

INTERNET   or   OK

● Depending on the usage conditions, it may take a while to read all the data.
● Messages might be displayed before VIERA Connect home screen. Please read these instructions carefully and follow the on-screen instructions.

Example: VIERA Connect home screen

● To go to the next level, select [MORE].
● To back to the previous level, select [BACK].
● To return to VIERA Connect home screen

■ To exit from VIERA Connect

EXIT

● To set the VIERA Connect introduction banner display off
➡ **[VIERA Connect Banner] (p. 46)**

● Video communication (for example Skype™) requires an exclusive Communication Camera TY-CC20W.
➡ **"Optional accessories" (p. 8)**
For details, read the manual of the Communication Camera.
● You can connect a keyboard and a gamepad via USB port for character input and playing games in VIERA Connect. You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features.
For more information ➡ **"USB connection" (p. 108)**

Note
● If you cannot access VIERA Connect, check the network connections (p. 15) and settings (p. 17, 18).
● For more information of VIERA Connect ➡ **(p. 91)**

20

Watching TV
1 ## Turn power on

● Press for about 1 second.
● Mains power On / Off switch should be on. (p. 12)

■ VIERA Connect introduction banner appears

Every time you turn on the TV, this banner appears at the bottom of the screen.
You can access to VIERA Connect easily and enjoy the various contents. ➡ **(p. 20)**
● To remove this banner, leave for about 5 seconds or press any buttons (except the buttons to access VIERA Connect).
● To set this banner display off ➡ **[VIERA Connect Banner] (p. 46)**
● The banner is subject to change.

2 ## Select the mode

Note
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- No other channel can be selected while the recording of Timer Programming is in progress.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV.
  If a compatible recorder with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 94, 95) and [Link Settings] (p. 45) are completed, no setting of the recorder is required. Also read the manual of the recorder.
- When recording programmes to the USB HDD, be sure to format the USB HDD and enable it to record in [Recording Setup] (p. 70).
- For more information of the USB HDD Recording ➡ **(p. 70, 107)**

Guide link programming (Timer Programming from the TV Guide signal) [UK only]

Guide link programming is Timer Programming which is controlled by information from the TV Guide; if programme start and end times are changed by the broadcaster, the timer programming event will follow the change.
A Split Programme programming is a Guide link programming which is interrupted by one or more other programmes.
Note that Guide link programming (including Split Programme programming) only works reliably if correct information is received from broadcasters.

(Timer Programming screen)

Timer Programming			Wed 226 Oct 2011 10:46		
Function	No.	Channel Name	Date	Start	End

EXIT or GUIDE

Using TV Guide

29
Viewing Teletext

You can enjoy news, weather forecasts and subtitles, etc. (depending on the broadcaster)
● The availability of teletext services for a programme is indicated by [TEXT] in the information banner.
Information banner ➡ **(p. 22)**

Displayed if programme has teletext service

Ireland

Depending on the broadcaster, the digital teletext (MHEG) services may not be available. In this case, the operation of the teletext services may be the same as the analogue teletext services (p. 31).

Digital teletext (MHEG)

Digital teletext services differ greatly from analogue teletext.
When you switch to a digital teletext service, the images you see can contain graphics and text, laid out and controlled in a manner decided by the broadcaster.
1 Select freesat or DVB
➡ **(p. 21)**

[TV]

● freesat and DVB programmes have digital teletext services (MHEG).

2 Switch to Teletext

TEXT

Example:

17:51 28 Feb
■ How to operate services

In all cases, it is possible to navigate the pages using buttons on the remote control, but because the commands available must apply to all manufacturers of digital equipment, some on-screen commands may not correspond exactly to the remote control buttons.

● Select, go

● Back key
BACK/RETURN

● Symbol: ◀ ▶ ▼ ▲

● Coloured characters

Coloured button

● When options with numbers are displayed

■ To return to TV

TEXT

Note

● As soon as you switch to a digital channel with links to a teletext service, software is downloaded in the background to enable the teletext function. This means that when switching to a digital channel, you should wait for approximately 5 seconds before pressing the TEXT button - this will allow the software to download. If you press the TEXT button before download is complete, it will be ignored and you will have to press the TEXT button again when the download is complete.
● While navigating digital teletext, you will find there is a short delay when moving between pages while the page downloads. There is often a prompt shown somewhere on the page (for example "Loading") to let you know that this is happening.

30

Analogue teletext

Teletext services are the text information provided by the broadcasters.
The features may vary depending on the broadcasters.
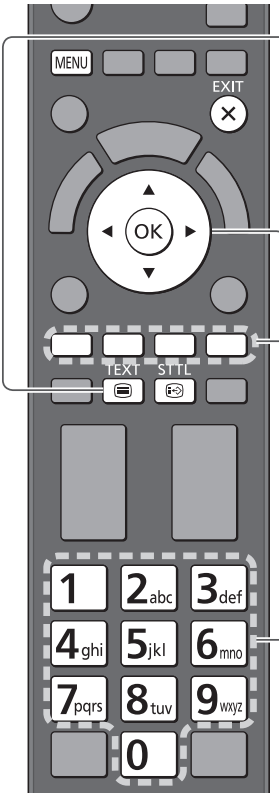

What is FASTEXT mode?
In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriate coloured button. This facility enables fast access to information on the subjects shown.

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV's memory. ➡ **"Store frequently viewed pages" (p. 32)**

■ **To change mode** ➡ **[Teletext] (p. 46)**

How to change the code
Each type of the Panasonic equipment has its own remote control code.
Change the code according to the equipment you want to operate.
Press and hold Standby On / Off switch during the following operations

Enter the appropriate code, see table below   [1][2][3][4][5][6][7][8][9][0]   ➡   Press   ■

Type of the equipment, features	Code
DVD Recorder, DVD Player, Blu-ray Disc Player	70
Player theatre, Blu-ray Disc theatre	71
VCR	72
Using in USB HDD Recording (p. 72), Media Player (p. 74), DLNA features (p. 88) or Direct TV Recording (p. 94, 96) Equipment using in VIERA Link (p. 97)	73 (default)

(**Note**)
- Confirm if the remote control works correctly after changing the code.
- The codes may be reset to default values if batteries are replaced.
- Some operations may not be possible on some equipment models.

Viewing 3D images

You can enjoy viewing 3D images with contents or programmes corresponding to the 3D effect by wearing the 3D Eyewear. ➡ **"Optional accessories" (p. 8)**
This TV supports [Frame Sequential]*1, [Side by Side]*2 and [Top and Bottom]*3 3D formats.
*1: The 3D format that the images for the left and right eyes are recorded with the high definition quality and alternately played back.
*2, *3: Other available 3D formats
● How to view the 3D images ➡**(p. 36)**

(**Caution**)

To use 3D Eyewear safely and comfortably, please read these instructions fully.

Viewing 3D Content
● Do not use the 3D Eyewear if you have a history of over-sensitivity to light, heart problems, or have any other existing medical conditions.
● Please stop using the 3D Eyewear immediately, if you feel tired, are not feeling well or experience any other uncomfortable sensation. When you set the effect by using [3D Adjustment], take into account that the vision of 3D images varies among different individuals.
● Take an appropriate break after viewing a 3D movie.
● Take a break of between 30 - 60 minutes after viewing 3D content on interactive devices such as 3D games or computers.
● Be careful not to strike the TV screen or other people unintentionally. When using the 3D Eyewear the distance between the user and screen can be misjudged.
● The 3D Eyewear must only be worn when viewing 3D content.
● Use the 3D Eyewear where there is no interference from other devices with Bluetooth signal.
● If you suffer from any eyesight problems (short / far-sighted, astigmatism, eyesight differences in left and right), please ensure to correct your vision before using the 3D Eyewear.
● Stop using the 3D Eyewear if you can clearly see double images when viewing 3D content.
● Do not use the 3D Eyewear at a distance less than the recommended distance.
  The recommended viewing distance is at least 3 times of the image height.
  TX-L42DT50B: 1.6 m or more
  TX-L47DT50B: 1.8 m or more
  TX-L55DT50B: 2.1 m or more
  When the top and bottom area of the screen is blackened, such as movies, view the screen at a distance at least 3 times of the height of the actual image. (That makes the distance closer than above recommended figure.)

3D Eyewear Use
● Pay special attention when children are using the 3D Eyewear.
  3D Eyewear should not be used by children younger than about 5 - 6 years old, as a guideline. All children must be fully supervised by parents or guardians who must ensure their safety and health throughout the using 3D Eyewear.
● Before using the 3D Eyewear, ensure no breakable objects surrounding the user to avoid any accidental damage or injury.
● Remove the 3D Eyewear before moving around to avoid falling or accidental injury.
● Use the 3D Eyewear only for the intended purpose and nothing else.
● Do not use 3D Eyewear in the condition of high temperature.
● Do not use if the 3D Eyewear is physically damaged.
● Do not use devices (such as mobile phones or personal transceivers) that emit strong electromagnetic waves near the 3D Eyewear as this may cause the 3D Eyewear to malfunction.
● Stop using the 3D Eyewear immediately if a malfunction or fault occurs.
● Stop using the 3D Eyewear immediately if you experience any redness, pain, or skin irritation around the nose or temples.
● In rare cases, the materials used in the 3D Eyewear may cause an allergic reaction.

3D Eyewear (optional)

FULL HD RF
3D

● Use the Panasonic 3D Eyewear that has this logo and supports Bluetooth® wireless technology.

"Full HD 3D Glasses™" logo indicates products that are compatible with the active shutter 3D glasses technology standards licensed by the Full HD 3D Glasses Initiative. The RF mark on the logo means the wireless system (Bluetooth® wireless technology), and you can use the 3D Eyewear and the TV that have the same mark together.

(**Note**)

● Use the 3D Eyewear within approximately 3.2 m from the TV. You cannot view the 3D images with the 3D Eyewear too far from the TV, because of the difficulty of receiving radio waves from the TV.
● The range may be shortened depending on the obstacles between the TV and the 3D Eyewear, or the surrounding environment.
● There are differences in the viewing range of the 3D Eyewear among individuals.
● The 3D Eyewear may not operate correctly at the outside of the viewing range.

35

To view the 3D images

You can enjoy the 3D images in a variety of ways.
(Frame Sequential, Side by Side and Top and Bottom are the supported 3D format.)

■ Playing back 3D-compatible Blu-ray disc (Frame Sequential format)
● Connect the 3D-compatible player via a fully wired HDMI compliant cable.
● If input mode is not switched automatically, select the input mode connected to the player. (p. 33)
● If you use the non 3D-compatible player, the images will be displayed on 2D mode.

■ 3D-supported broadcast
● Please consult the suppliers of contents or programmes for availability of this service.

■ 3D photos and 3D videos taken by 3D-compatible Panasonic products
● Available in Media Player (p. 73) and Network services (p. 88)

■ 2D images converted to 3D
● Set to [2D→3D] mode in [3D Mode Selection]. (p. 37)

Preparations
Perform the First Registration when the 3D Eyewear is used for the first time. For details, read the manual of the 3D Eyewear.

1 Turn the 3D Eyewear on and put it on
● Connection status and battery status are displayed on the bottom right of the screen.

2 View the 3D images
● Safety precautions will be displayed when you first watch the 3D image. Select [Yes] or [No] to continue to view 3D images.
If you select [Yes], this message will be displayed again in the same condition after Mains power On / Off switch is next turned on. Select [No] if you do not want to display this message again.
● Turn off the 3D Eyewear after using it.

Note
● 3D Eyewear is not included. Please purchase as necessary. (p. 8)
● For more detail about using and wearing the 3D Eyewear, read the manual of the 3D Eyewear.
● The 3D image or 3D effect may not be available in the following conditions:
　• VIERA Connect home screen (p. 20) is displayed.
　• [Ext Rec.] of Timer Programming (p. 60) is in progress.
　• Direct TV Recording (p. 94, 96) is in progress.
　As for the contents of the Frame Sequential format and Side by Side (Full), no images will be displayed in these conditions.
● If light appears to flicker under fluorescents or dimmers when using the 3D Eyewear, change the setting of [3D Refresh Rate]. (p. 42)
● 3D content will not be correctly visible if the 3D Eyewear is worn upside down or back-to-front.
● Do not wear the 3D Eyewear when watching anything other than 3D images. Liquid crystal displays (such as computer screens, digital clocks or calculators, etc.) may be difficult to see while wearing the 3D Eyewear.
● Do not use the 3D Eyewear as sunglasses.
● 3D effects may be perceived differently depending on the person.

Changing 2D - 3D mode

You can easily change the viewing mode between 2D and 3D using the 3D button.
● This function is not available in PC mode.

Select the mode

Converts 2D images into 3D.
- Please note the 3D images appear slightly different from the originals.
- Using this function for profit-making purposes, or publically showing images converted from 2D to 3D in places such as shops or hotels etc. may infringe on the rights of the copyright holder protected under copyright law.

Table of images that can be seen for each [3D Mode Selection (Manual)] and the source image format
If the picture appears to be abnormal, refer to the table below to choose the correct 3D mode.

[3D Mode Selection] Source image format	[Original]	[Frame Sequential - 3D]	[Side by Side - 3D]	[Top and Bottom - 3D]	[2D→3D]
Frame Sequential	A	A Normal 3D*1	A	A	A
Side by Side (Full)	A	A	A Normal 3D*1	A	A
Side by Side	A A	A A	A Normal 3D*1	AA AA	A A
Top and Bottom	A A	A A	◤◢	A Normal 3D*1	A A
Normal format (2D)	A	A	◤◢	A A	A Normal 3D

*1: When selecting [Frame Sequential - 2D], [Side by Side - 2D] or [Top and Bottom - 2D], the images will be displayed without 3D effect.
- Depending on the player or broadcasts, the image may be different from the above illustrations.

Item	Adjustments / Configurations (alternatives)
2D→3D Depth	Selects a level of 3D-image depth for viewing converted 2D images **[Min] / [Mid] / [Max]**
3D Adjustment	Adjustment of the 3D effect (except in [2D→3D] mode) **[Off] / [On]** ● Set to [On] to enable [Effect] setting. ● When setting to [On], a safety precaution message will appear. Read it carefully and press the BACK/RETURN button to go to [Effect] setting. **[Effect]:** Adjusts the 3D depth according to the contents or to your preference.
Picture Sequence	Select [Reverse] if you feel that the sense of depth is unusual (except in [2D→3D] mode) **[Normal] / [Reverse]**
Edge Smoother	Set to [On] if you feel the contoured parts of an image are not smooth enough (except in [2D→3D] mode) **[Off] / [On]**
3D Detection	Automatically detects the 3D format signals **[Off] / [On] / [On (Advance)]** **[On (Advance)]:** Detects all the 3D format signals and displays the 3D image automatically. **[On]:** Detects the particular 3D format signals (Frame Sequential, etc.) and displays the 3D image automatically. ● To view 3D images without any notifications and operations, set to [On (Advance)].
3D Signal Message	Selects whether to give a notification message when a signal of 3D format is found **[Off] / [On]** ● For DVB, Component and HDMI input ● This function is not available when [3D Detection] is set to [On (Advance)].
Safety Precautions	Displays the precautions for viewing 3D images

Note

● [3D Adjustment] and [Picture Sequence] will not be memorised when changing the input mode or channel.

How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.
- For [VIERA Link] function to operate correctly, ensure the connections and settings are completed.
    ➡ **"Summary of Q-Link and VIERA Link features" (p. 92), "Preparations" (p. 95)**
      After connection, turn the equipment on and then switch the TV on.
- For [Photo], [Video] and [Music] functions to operate correctly, ensure the device has photo, video or music data on it and insert it into the SD Card slot or USB port properly. ➡ **"Using Media Player" (p. 73)**

1 ## Display icons of the feature

Menu list

Menu	Item	Adjustments / Configurations (alternatives)

Picture	**Viewing Mode**	Selects your favourite picture mode for each input
		[Dynamic] / **[Normal]** / **[Cinema]** / **[True Cinema]** / **[Game]** / **[Professional1]** / **[Professional2]**
		[Dynamic]:
		  Improves contrast and sharpness for viewing in a bright room.
		[Normal]:
		  The [Colour Balance] default setting is set to [Cool]. This is ideal for natural day light conditions.
		● For indoor lighting conditions, change the [Colour Balance] setting to [Normal] or [Warm] for best picture viewing. If [Reset to Default] is performed, the [Colour Balance] setting will return to [Cool].
		[Cinema]:
		  Improves the performance of contrast, black and colour reproduction for watching movies in a darkened room.
		[True Cinema]:
		  Reproduces the original image quality precisely without any revision.
		[Game]:
		  Provides suitable images for fast response signal when playing games.
		● Not valid on TV mode
		● To display a continuous record of time spent using Game mode
		  ➡ [Playing Time Display] (p. 46)
		[Professional1 / 2]:
		  Allows you to set the professional picture settings in [Advanced Settings], [Lock Settings] and [Copy Adjustment]. ➡ (p. 68)
		● This mode is available only when [Advance(isfccc)] in the Setup Menu is set to [On].
		● If the certified professional dealer sets these modes, [Professional1] and [Professional2] may be displayed as [isf Day] and [isf Night].
		
		In each Viewing Mode, [Contrast], [Brightness], [Colour], [Sharpness], [Tint], [Colour Balance], [Vivid Colour], [C.A.T.S.], [P-NR] and [3D-COMB] can be adjusted and stored.
		Additionally, you can adjust the detailed settings when [Advance(Calibration)] in the Setup Menu is set to [On]. ➡ (p. 47)
		● You can set [Viewing Mode] in 2D and 3D mode for each.

	Contrast, Brightness, Colour, Sharpness	Adjusts the levels of these options according to your personal preference
	Tint	Adjusts the picture hue to suit your taste ● For NTSC signal reception
	Colour Balance	Sets the overall colour tone of the picture **[Cool]** / **[Normal]** / **[Warm]** ● Not valid when [Viewing Mode] is set to [True Cinema], [Professional1] or [Professional2]
	Vivid Colour	Automatically adjusts colours to vivid ones **[Off]** / **[On]** ● Not valid on PC mode ● Not valid when [Viewing Mode] is set to [Professional1] or [Professional2]
	C.A.T.S.	Contrast Automatic Tracking System (Automatic Brightness Control function) Adjusts picture settings automatically depending on ambient lighting conditions **[Off]** / **[On]** ● Set to [On] to make the suitable contrast setting automatically. The default setting is [On] when [Viewing Mode] is set to [Normal].
	P-NR	Picture Noise Reduction Reduces unwanted picture noise and flicker noise in the contoured parts of a picture **[Off]** / **[Min]** / **[Mid]** / **[Max]** / **[Auto]** ● Not valid on PC mode or when [Viewing Mode] is set to [Game]
	3D-COMB	Makes still or slow moving pictures more vivid **[Off]** / **[On]** ● Occasionally, while viewing still or slow moving pictures, colour patterning may be seen. Set to [On] to display sharper and more accurate colours. ● For PAL / NTSC signal reception in TV mode or from composite (except 3D mode)
	3D Settings	Adjusts and sets to view 3D images (p. 38)
	Screen Display	Turns the screen off when you select [Off] **[Off]** / **[On]** ● The sound is active even if the screen turns off. ● Press any buttons (except Standby) to turn the screen on. ● This function is effective in reducing power consumption when listening to the sound without watching the TV screen.

41

Menu		Item	Adjustments / Configurations (alternatives)
Picture	**Advanced Settings**	**Intelligent Frame Creation**	Automatically compensates the picture frame rate and removes juddering movements to make the images smooth **[Off] / [Min] / [Mid] / [Max]** ● Depending on the contents, images may be noisy. To prevent the noise, change the setting. ● Not valid on PC mode or when [Viewing Mode] is set to [Game]
		24p Smooth Film	Automatically compensates the picture frame rate to make the 24p source movie images smooth **[Off] / [Min] / [Mid] / [Max]** ● This is available only for 24p signal input and displayed instead of [Intelligent Frame Creation]. ● Not valid on PC mode or when [Viewing Mode] is set to [Game]
		Clear Cinema	Improves vertical resolution for movie images **[Off] / [On]** ● This function is available for the interlaced signal (except in the mode of PC, VIERA Connect or when [Viewing Mode] is set to [Game]).

		3D Refresh Rate	Reduces juddering and flicker noises of the 3D images when using the 3D Eyewear **[Auto] / [100Hz] / [120Hz]**
			[100Hz]:
			  If light appears to flicker under fluorescents (or dimmers) of 50 Hz.
			[120Hz]:
			  If light appears to flicker under fluorescents (or dimmers) of 60 Hz. If flicker noises appear with 50 Hz input signal.

		16:9 Overscan	Selects the screen area displaying the image **[Off] / [On]**
			[On]:
			  Enlarges the image to hide the edge of the image.
			[Off]:
			  Displays the image in the original size.
			● Set to [On] if noise is generated on the edge of the screen.
			● This function is available when aspect is set to [Auto] (16:9 signal only) or [16:9].
			● This function can be memorised separately for SD (Standard definition) and HD (High definition) signals.
			● Not valid on PC mode or VIERA Connect

		DVI Input Setting	Changes the black level of the image for HDMI input mode with DVI input signal manually **[Normal] / [Full]** ● When the DVI input signal from the external equipment (especially from PC) is displayed, the black level may not be suitable. In this case, select [Full]. ● The black level for HDMI input signal will be adjusted automatically. ● For HDMI input mode with DVI input signal
	Reset to Defaults		Press the OK button to reset the current Picture Viewing Mode to the default settings

Sound		**Mode**	Selects your favourite sound mode **[Music] / [Speech] / [User]**
			● The selected mode affects all input signals.
			[Music]:
			  Improves sound quality for watching music videos, etc.
			[Speech]:
			  Improves sound quality for watching news, drama, etc.
			● In Music and Speech modes, you can adjust [Bass] and [Treble] settings, and those settings will be stored for each mode.
			[User]:
			  Adjusts the sounds manually by using the equaliser to suit your favourite sound quality.
			● For the User mode, [Equaliser] will appear on the Sound Menu instead of [Bass] and [Treble]. Select [Equaliser] and adjust the frequency. ➡ [Equaliser] (p. 43)

42

Menu	Item	Adjustments / Configurations (alternatives)
Sound	**Bass**	Adjusts level to enhance or minimise lower, deeper sound output
	Treble	Adjusts level to enhance or minimise sharper, higher sound output
	Equaliser	Adjusts the frequency level to suit your favourite sound quality ● This function is available when [Mode] is set to [User]. ● Select the frequency and change the frequency level by using the cursor button. ● To enhance the bass sound, raise the level of the lower frequency. To enhance the treble sound, raise the level of the higher frequency. ● To reset the levels of each frequency to the default settings, select [Reset to Defaults] by using the cursor button, and then press the OK button.
	Balance	Adjusts volume level of right and left speakers
	Headphone Volume	Adjusts the volume of the headphones
	Surround	Surround sound settings **[Off] / [V-Audio] / [V-Audio Surround] / [V-Audio ProSurround]** **[V-Audio]:** Provides a dynamic enhancer of width to simulate improved spatial effects. **[V-Audio Surround]:** Provides a dynamic enhancer of width and depth to simulate improved spatial effects. **[V-Audio ProSurround]:** Provides a more progressive enhancer and reverberation to simulate improved spatial effects. ● Switching is also possible by the SURROUND button on the remote control (p. 11).
	Auto Gain Control	Automatically regulates large sound level differences between channels and inputs **[Off] / [On]**
	Volume Correction	Adjusts the volume of individual channel or input mode
	Speaker Distance to Wall	Compensates for the low frequency sound due to the distance between the speakers and the wall **[Over 30cm] / [Up to 30cm]** ● If the back space between the TV and wall is over 30 cm, [Over 30cm] is recommended. ● If the back space between the TV and wall is within 30 cm, [Up to 30cm] is recommended.
	Preferred Multi Audio UK only	Selects the preferred language for digital channel multi audio (depending on the broadcaster) **[English] / [Welsh] / [Gaelic] / [Irish]**
	NICAM	Near Instantaneous Companded Audio Multiplex Reproduces NICAM stereo sound **[Off] / [On]** ● Off if reception is poor (FM monaural sound) ● For Analogue mode
	SPDIF Selection	SPDIF: A standard audio transfer file format Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals **[Auto] / [PCM]** **[Auto]:** Dolby Digital Plus, Dolby Digital and HE-AAC multi-channel are output as Dolby Digital Bitstream. MPEG is output as PCM. **[PCM]:** Digital output signal is fixed to PCM. ● For Digital mode or video contents of Media Player / Network services (p. 81, 91) ● ARC (Audio Return Channel): A function of digital audio output using HDMI cable
	HDMI1 / 2 / 3 / 4 Input	Selects to fit the input signal **[Digital] / [Analogue]** (p. 108) **[Digital]:** When sound is carried via the HDMI cable connection **[Analogue]:** When sound is not carried via the HDMI-DVI adaptor cable connection ● For HDMI input

Menu		Item	Adjustments / Configurations (alternatives)
Sound	Voice Guidance Settings	Voice Guidance	Set to [On] to enable voice guidance of the basic features (EPG, on-screen messages, etc.) for visually impaired users **[Off] / [On]**
		Speed	Selects the readout speed for the voice guidance **[Normal] / [Fast]**
		Volume	Selects the volume for the voice guidance **[Min] / [Mid] / [Max]**
		User Level	Selects the level of verbosity for voice guidance **[Beginner] / [Expert]**
	Audio Description Menu	Audio Description	Narration settings for visually impaired users **[Off] / [Auto]** Set to [Auto] to activate the narration sound track when available on the broadcast. ● The availability of audio description sound track is indicated by [AD] in the information banner (p. 22). ● For freesat or DVB mode
		Volume ⎡UK only⎤	Adjusts the volume for Audio Description ● For DVB mode
		Speakers ⎡UK only⎤	Set to [On] to activate the description sound track from TV speakers **[Off] / [On]** ● For DVB mode
		Headphones ⎡UK only⎤	Set to [On] to activate the description sound track from headphones **[Off] / [On]** ● For DVB mode
	Reset to Defaults		Press the OK button to reset the current Sound Mode, [Balance], [Headphone Volume] and [Surround] to the default settings
Network	Connection Test, Network Connection, Wireless Network Settings, IP/DNS Settings		Sets the network setting to use in your network environment (p. 85)
	Network Link Settings		Sets to control the TV with the devices connected to the network (p. 85)
	Software Update		Checks for available software updates from the Panasonic website
	New Software Message		Selects whether to give a notification message when new software is found via network **[Off] / [On]**
	Network Status		Displays the network status (MAC Address, current network settings, etc.)
Timer	Timer Programming		Sets a timer to record or remind forthcoming programmes (p. 60)
	Off Timer		Sets the duration of time until the TV automatically goes into Standby mode **[Off] / [15] / [30] / [45] / [60] / [75] / [90] (minutes)** (p. 23)
	Auto Standby		Sets the duration of time that the TV will remain on when no operation is performed **[Off] / [2] / [4] (hours)** ● Starting Timer Programming automatically does not affect this function. ● Automatic input switching with the connected equipment affects this function and time-count will be reset. ● The notification message will appear 3 minutes before going into Standby mode.

44

Menu		Item	Adjustments / Configurations (alternatives)
Setup	TV Guide Settings	**TV Guide View**	Changes the layout of TV Guide **[Normal] / [Full] / [Info]** **[Normal]:** Default TV Guide screen **[Full]:** Displays channels and programmes full-screen without the operation guide **[Info]:** Displays details of the selected programme at the bottom without the operation guide
		Eco Navigation	Automatically sets the TV to the most suitable energy-saving mode ● If you press the OK button, the following items are set as below: [C.A.T.S.], [VIERA Link], [Standby Power Save], [Power Save] ⇒ [On] [Intelligent Auto Standby] ⇒ [On (No reminder)] [Auto Standby] ⇒ [2 hours] [Front Logo LED] ⇒ [Off]
		Recording Setup	Settings for the recording feature of the USB HDD (p. 70)
	Link Settings	**VIERA Link**	Sets to use VIERA Link functions **[Off] / [On]** (p. 95)
		HDMI Content Detection	Automatically adjusts the picture settings according to the received HDMI content via HDMI cable **[Off] / [Auto]** ● This function is available if the connected equipment supports HDMI Content Type. ● The content type information will be displayed for several seconds when this function works.
		AV1 out	Chooses the signal to be transmitted from the TV to Q-Link **[TV] / [AV2] / [Monitor]** **[Monitor]:** Image displayed on screen ● Component and HDMI signals cannot be output.
		Standby Power Save	Controls the connected equipment to reduce power consumption in Standby **[Off] / [On]** (p. 96) ● This function is available when [VIERA Link] is set to [On].
		Intelligent Auto Standby	Makes non-watched or non-used connected equipment go into Standby mode to reduce the power consumption **[Off] / [On (With reminder)] / [On (No reminder)]** (p. 96) ● This function is available when [VIERA Link] is set to [On].
		Q-Link Download	Downloads analogue channel information to a Q-Link compatible equipment connected to the TV
		Child Lock	Applies access control for channels or inputs to prevent unwanted access (p. 62)
	Tuning Menu*	**Favourites Edit**	Creates a list of favourite channels (p. 55) ● Not valid on Analogue mode
		Channel List	Skips the unwanted channels or edits channels (p. 56)
		Region Channel Edit ⟨UK only⟩	Replaces your regional channels with the available channels from another region (p. 55) ● For freesat mode
		Auto Setup	Automatically searches for the receivable channels (p. 52)
		Channel Sorting by Region ⟨UK only⟩	Automatically sorts tuned channels according to the available region (p. 56) ● For DVB mode
		Manual Tuning	Searches for the channels manually (p. 57) ● Not valid on freesat mode

How to Use Menu Functions

45

Menu		Item	Adjustments / Configurations (alternatives)
Setup	**Tuning Menu***	**Update Channel List**	Updates the channel list while keeping your settings (p. 57) • For DVB mode
		New Channel Message	Selects whether to give a notification message when a new channel is found **[Off] / [On]** (p. 57) • For DVB mode
		Signal Condition	Checks the signal condition (p. 57) • Not valid on Analogue mode
		Add New Channels	Adds new Other Satellite channels to the channel list (p. 59) • For Other Sat. [UK] / Satellite [Ireland] mode
	Language [Ireland only]	**Preferred Audio 1 / 2**	Selects the first and second preferred language for digital channel multi audio (depending on the broadcaster)
		Preferred Subtitles 1 / 2	Selects the first and second preferred language for digital channel subtitles (depending on the broadcaster) • To display subtitles ➡ (p. 24)
		Preferred Teletext	Selects the preferred language for digital channel teletext service (depending on the broadcaster)
	Display Settings	**Preferred Subtitle Type** [Ireland only]	Selects the preferred subtitle type **[Standard] / [Hard of Hearing]** • [Hard of Hearing] provides aids in understanding and enjoyment with digital channel subtitles (depending on the broadcaster). • [Preferred Subtitles 1 / 2] in [Language] are given priority.
		Teletext	Analogue teletext display mode **[FASTEXT] / [List]** (p. 30)
		Teletext Character Set [Ireland only]	Selects teletext language font **[West] / [East1] / [East2]** **[West]:** English, French, German, Greek, Italian, Spanish, Swedish, Turkish, etc. **[East1]:** Czech, English, Estonian, Lettish, Rumanian, Russian, Ukrainian, etc. **[East2]:** Czech, Hungarian, Lettish, Polish, Rumanian, etc.

Update DVB channel automatically [Update Channel List]

You can add new channels, delete removed channels, update channel name and position automatically to the channel list.

Example: UK

DVB Update Channel List			
Progress	CH 21		68
This will take about 3 minutes.			
CH	Channel Name	Type	Quality
● The channel list is updated while keeping your settings in [Favourites Edit], [Channel List], [Child Lock], etc.
● Depending on the signal condition, the update may not work properly.

Display a notification message [New Channel Message] (DVB)

Selects whether to give a notification message when a new DVB channel is found.

New channels found!
Press OK to update channel list.
Press EXIT to ignore.

● Selecting OK will perform [Update Channel List].

Check DVB signal [Signal Condition]

Selects a channel and checks the DVB signal condition.

A good Signal Strength is not an indication of suitable signal for DVB reception.
Use the Signal Quality indicator as follows.
● Green bar: Good
● Yellow bar: Poor
● Red bar: Bad (Check the Terrestrial aerial)

● To change the channel

∧
∨

Example: UK
DVB Signal Condition	
Channel Name	101 BBC 1 Wales
Signal Quality	0
Signal Strength	0
Bit Error Rate	0.00E+00
Network Name	Astra 28.2° E
Frequency	10847MHz, V, 22000kS/s

These bars show the maximum signal value of the selected channel.

Tuning and Editing Channels

57

(Other Sat.) [UK] / (Satellite) [Ireland]

② start

Other Satellite Add New Channels	
Satellite	Astra2/Eurobird
Progress	0% ▮ 100%
This may take up to 20 minutes.	
No.	Channel Name	Type	Quality
Free TV: 0	Pay TV: 0	Radio: 0
Searching		

- New channels can only be added to the existing Channel List from the same satellite.

List favourite Other Sat. / Satellite channels [Favourites Edit]

Create your favourite channel lists from various broadcasters (up to 4: [Favourites]1 to 4).
The Other Sat. / Satellite Favourites lists are available for switching in the Information banner (p. 22)

- To change the category

  (blue)

- To add continuous block of channels to the list at once
  (yellow) ① make the block ② add

- As for the other operations, refer to "List favourite DVB channels" ➡ **(p. 55)**

Create the channel list of Other Sat. / Satellite [Channel List]

Create your channel list of Other Sat. / Satellite for viewing from all the found channels to exclude the duplicated channels or to reduce the number of channels. And then you can select your desired channels easily.

1 Select a channel to list

Other Satellite Channel List Editor	
Channels Found - All	Channels for Viewing
BBC One Wales	
BBC THREE	
E4	
CBBC Channel	
Cartoon Nwk	
BBCi	
BBC Radio Wales	
BBC Radio Cymru	

- To change the category

  (red)

2 Add it to the list

Other Satellite Channel List Editor	
Channels Found - All	Channels for Viewing
BBC One Wales	1 BBC One Wales
BBC THREE	
E4	
CBBC Channel	
Cartoon Nwk	
BBCi	
BBC Radio Wales	
BBC Radio Cymru	
- To add continuous block of channels to the list at once

  (yellow) ① make the block ② add

- To delete the selected channel from the list of [Channels Found]

  (green)

- To exclude the selected channel from the list of [Channels for Viewing]

- To move the selected channel in the list of [Channels for Viewing]

  (green) ➡ Select the new position ➡ Select the turn (1 2 3 / 4 5 6 / 7 8 9 / 0) or ➡ Store (green)

Set Other Sat. / Satellite channel manually [Manual Tuning]

Normally use [Auto Setup] or [Add New Channels] to tune Other Sat. / Satellite channels.

Other Satellite Manual Tuning	
Transponder Frequency	10773
Polarisation	Horizontal
Symbol Rate (Ksym/s)	Auto
Start Scan	
- Set tuning parameters for the required satellite, details can usually be found in a satellite TV magazine.

Tuning and Editing Channels

59

Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you want to remind watching or record to the external recorder or the USB HDD. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode.
TV Guide may also be used to set timer programming event (p. 27).
- Timer Programming can store up to 15 events.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- For recording using Timer Programming, the TV must be either on or in Standby. For reminders to be displayed, the TV must be on.
- No other channel can be selected while the recording of Timer Programming is in progress.
- Recording an encrypted (copy-protected) programme may not be possible.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV. If a recorder compatible with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 94, 95) and [Link Settings] (p. 45) are completed, no setting of the recorder is required. Also read the manual of the recorder.
- If the recorder is not compatible with Q-Link, VIERA Link or similar technologies, make timer programming of the recorder. For preparations of a recorder, read the manual of the recorder.
- For more information of the USB HDD Recording **(p. 70, 107)**
- Recording to the external equipment via SCART is always in standard definition (composite video), even if the original programme is in high definition.
- 2 minutes before the starting time, a reminder message appears if you are watching TV.
  - To remove the message and start the programming
  - To cancel the programming

1 ### Select the tuner you want to use
(p. 21)

`TV`

2 ### Display the menu and select [Timer]

1 Channel number

4 Ending time

3 Starting time

📡 : freesat / D : DVB / A : Analogue / S : Other Sat. UK
D: DVB / A: Analogue / S: Satellite Ireland
- You cannot change the mode within the menu.

UK only

Guide : Guide link programming - Programmes according to the TV Guide signal (p. 28)

S/P : Split Programme programming (p. 28)

- These functions are not available in Analogue mode or Other Sat. mode.
Guide link programming is Timer Programming which is controlled by information from the TV Guide; if programme start and end times are changed by the broadcaster, the timer programming event will follow the change.
A Split Programme programming is a Guide link programming which is interrupted by one or more other programmes. Note that Guide link programming (including Split Programme programming) only works reliably if correct information is received from broadcasters.

■ To edit a timer programming event

Select the event

⬆⬇ OK

- To change a timer programming event

- To delete a timer programming event

⬜ (red) ➡ OK

- To record with subtitles (if available)

⬜ (yellow) · Each time pressed: auto ⬌ off

- To cancel a timer programming event temporarily

⬜ (blue) · Each time pressed: cancel ⬌ stop cancelling

■ To unlock the tuner and stop recording

GUIDE ➡ EXIT ✕

■ To view details of the programming (only for Guide link programming) UK only

Select the programme

⬆⬇ OK ➡ ⓘ

- Press again to return to Timer Programming menu.

Note

- Check that the LED is orange. If not, timer programming events are not active or not stored.
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- "!" identifies that two or more timer programming events are overlapped. [Ext Rec.] and [USB HDD Rec.] are given priority over [Reminder].
  As for the overlapped recording events, the first event starts and finishes as programmed. The next event can then start.
- The recording of Timer Programming will automatically change to the programmed channel a few seconds before the start time.
- To stop recording the timer programming event, it may be necessary to stop the recorder manually.
- The recording of Timer Programming will be performed even if the TV is in [Rewind LIVE TV] recording (p. 72) or [Pause Live TV] recording (p. 97). In this case, [Rewind LIVE TV] recording or [Pause Live TV] recording will be cancelled.

USB HDD Recording

You can record the digital TV programmes to the connected USB HDD and enjoy playing back in various ways.
● Analogue TV programme cannot be recorded on the USB HDD.
● The data broadcasting (MHEG, etc.), radio broadcasting and the periods without any signal will not be recorded.
● Not all the programmes can be recorded depending on the broadcaster and service provider.
● You cannot copy the recorded contents of the USB HDD.
● For more information of the USB HDD ➡ **(p. 107)**

Caution

● All data in the USB HDD will be erased in the following cases:
　・When formatting the USB HDD with this TV ➡ **"Setting for USB HDD" (see below)**
　・When formatting the USB HDD to use on PC, etc.
● When the TV is repaired due to a malfunction, you may have to format the USB HDD again with this TV to use it. (All data will be erased when formatting.)
● In order to use the USB HDD with your PC after recording with this TV, format it again on your PC. (Special operations or tools may be necessary to format on your PC. For details, read the manual of the USB HDD.)
● The data recorded on the USB HDD with this TV can only be played back on this TV. You cannot play back its contents with another TV (including the TV of the same model number) or any equipment.
● Do not turn the TV off, pull out the mains plug or remove the USB HDD during operation (formatting, recording, etc.). It may cause malfunction of the device or damage the recorded data. (Also when the electric outage occurs.)

■ Preparation for USB HDD

Connect the USB HDD to the USB 1 port with the USB cable.
● Be sure to connect the USB HDD to the socket outlet.
● To remove the USB HDD safely from the TV ➡ **(p. 23, 71)**
● Check the type of terminals and cable plugs are correct when connecting.

USB HDD Recording

Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory, and contents recorded with this TV on the formatted USB HDD.
VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode:
   Still pictures recorded by digital cameras will be displayed.

Video mode:
   (For SD Card / USB Flash Memory) Moving pictures recorded by digital video cameras will be played back.

Recorded TV mode:
   (For exclusive USB HDD) TV programmes recorded on the USB HDD with this TV will be played back.
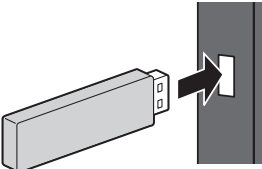

Music mode:
   Digital music data will be played back.

● During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 45). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 93) and set to use theatre speakers (p. 99).
● [Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "**/**/****".
● The picture may not appear correctly on this TV depending on the recording equipment used.
● Display may take some time when there are many files and folders.
● Partly degraded files might be displayed at a reduced resolution.
● Picture setting may not work depending on the conditions.
● The folder and file names may be different depending on the digital camera or digital video camera used.

■ To insert or remove the SD Card / USB Flash Memory

● For the USB HDD Connection ➡ (p. 70)

USB Flash Memory

● Insert or remove straightly and completely.
● Before removing the USB Flash Memory, ensure to perform "Safely remove USB" (p. 23).
● Connect the USB Flash Memory to the USB 1, 2 or 3 port.

SD Card

① Gently insert the SD Card with the label surface facing front.

② Push until a click is heard. To remove, push it again.

Cutout

● When connecting a USB device to the USB 1 port, there may be a difficulty to insert / remove the SD Card. In this case, confirm a USB device is not active and insert / remove the SD Card carefully.

● Check the type of terminals and devices are correct when connecting.
● For the information of the devices ➡ **"Devices for recording or playing back" (p. 107)**
● For the supported file format ➡ **"Supported file format in Media Player and media servers" (p. 104, 105)**

Using Network Services (DLNA / VIERA Connect / freesat)

DLNA®

This TV is a DLNA Certified™ product.

DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.

It allows you to share photos, videos (including 3D images) and music stored in the DLNA Certified media server (for example, PC with Windows 7 installed, DIGA Recorder, etc.) connected to your home network, and enjoy the contents on the TV screen.

It also allows you to control the TV with the DLNA Certified equipment connected to your home network. (DLNA Remote Control)

● For the supported file format ➡**(p. 104, 105)**
● AVCHD and DivX files are not supported by DLNA functions of this TV, but can be played by Media Player (p. 73).

■ Media server

Store photos, videos or music into the DLNA Certified media server, and then you can enjoy them on the TV.

To use a PC as a media server

Prepare the PC with Windows 7 or ensure the server software is installed on the PC.

"Windows 7" and "TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)" are the server software that has been tested for compatibility with this TV (as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.

● Windows 7
  The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
● TwonkyMedia server
  "TwonkyMedia server" is the product of PacketVideo Corporation.
  To obtain the Installation Guides for installing and setting "TwonkyMedia server", visit the website of TwonkyMedia. Additional fees may be charged to obtain server software.

(Note)

● For more information about the server software, please consult each software company.
● When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

To use a DLNA compatible DIGA Recorder as a media server

By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.

● Please read the manual of your DIGA Recorder to confirm whether the recorder is compatible with DLNA.

■ DLNA Remote Control

You can control the TV with the DLNA Certified equipment.

● To use this function, set [Network Link Settings]. ➡ **(p. 85)**
● "Windows 7" is the OS that has been tested for compatibility of this TV (as of January, 2011). For the operations, refer to the help functions of Windows 7.

Network connection ➡ **"Example 1", "Example 2" (p. 84)**

Network setup ➡ **(p. 85 - 88)**

DLNA operations ➡ **(p. 88 - 91)**

VIERA Connect

VIERA Connect is a gateway to the internet services unique to Panasonic.

VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, EPG, communication tools, etc. from VIERA Connect home screen.

● This TV does not support full web browser function and some features of the websites may not be available.

Network connection ➡ **"Example 1", "Example 3" (p. 84)**

Network setup ➡ **(p. 85 - 88)**

VIERA Connect operations ➡ **(p. 20, 91)**

freesat [UK only]

freesat may give you access to the interactive services and features through an internet connection.

● Please contact broadcasters for availability of services.

83

Network connections

To use only DLNA features, you can operate the features without broadband network environment.
To use VIERA Connect features or freesat interactive services, you need a broadband network environment.
● If you do not have any broadband network services, please consult your retailer for assistance.
● Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.
● Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.
Example 1
(For DLNA and VIERA Connect)
● Ensure to use a LAN straight cable for this connection.
● If your modem has no broadband router functions, use a broadband router.
● If your modem has broadband router functions but there are no vacant ports, use a hub.
● Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
● If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2
(For DLNA)

You can connect the TV and the equipment directly to use DLNA features.

● Ensure to use a LAN cross cable for this connection.

Example 3
(For VIERA Connect)

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

```
Note
```
● Contact your Internet Service Provider (ISP) or telecommunications company for further assistance regarding the network equipment.
● Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company. Depending on the contracts, additional fees may be charged or multiple connections to the internet may be impossible.

84

Help	Explains the setup items and operations in VIERA Connect

⎧ **Note** ⎫
● Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
  You can update the software later manually. ➡ **[Software Update] in [Network] (p. 88)**
● VIERA Connect home screen is subject to change without notice.
● The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
● Some content may be inappropriate for some viewers.
● Some content may only be available for specific countries and may be presented in specific languages.
● Depending on the connection environment, the internet connection may be slow or may not be successful.
● During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 45). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 93) and set to use theatre speakers (p. 99).
● You can restrict access to VIERA Connect. ➡ **[Child Lock] (p. 62)**
● Turn the TV off, and then on again when changing or reconnecting the network connection.

91

Link Functions (Q-Link / VIERA Link)

Q-Link connects the TV and DVD Recorder / VCR, and enables easy recording, playback, etc. ➡ **(p. 94)**

VIERA Link (HDAVI Control™) connects the TV and the equipment with VIERA Link function, and enables easy control, convenient recording, playback, energy saving, creating home theatre, etc., without complicated setting. ➡ **(p. 95 - 99)**

You can use Q-Link and VIERA Link functions together.

- This TV supports "HDAVI Control 5" function. But available features are depending on the connected equipment's version of HDAVI Control. Please read the manual of the equipment to confirm the version.
- VIERA Link features may be available even with other manufacturers' equipment supporting HDMI CEC.

Summary of Q-Link and VIERA Link features

HDMI cable

Optical digital audio cable

or

SCART cable

*7

HDMI cable

Player theatre / Blu-ray Disc theatre with VIERA Link function

Speaker system

- To use Amplifier

Amplifier with VIERA Link function

Speaker system

HDMI cable

DIGA Recorder with VIERA Link function

SCART cable

HD Video Camera / LUMIX Camera with VIERA Link function

- Use fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV's HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- Use fully wired SCART cable.
- If you use a SCART cable for audio output, connect the equipment supporting VIERA Link to the TV's AV1 terminal and set [AV1 out] to [Monitor] in the Setup Menu (p. 45).
- Use the optical digital audio cable or SCART cable for audio output from the TV.

*1: Available with the equipment which has "HDAVI Control 2 or later" function.
*2: Available with the equipment which has "HDAVI Control 3 or later" function.
*3: Available with the equipment which has "HDAVI Control 4 or later" function.
*4: Available with a DIGA Recorder which has HDD.

*5: While playing a disc.
*6: Except for watching a disc.
*7: If the connected equipment has "HDAVI Control 5" function, you do not have to use this audio cable (Optical digital audio cable or SCART cable). In this case, connect the equipment to the TV's HDMI2 terminal via an HDMI cable.

VIERA Link Control of compatible equipment ➡ [VIERA Link Control] (p. 97)

- Table below displays maximum number of compatible equipment that can be controlled by VIERA Link Control. This includes connections to equipment already connected to the TV.
  For example, DIGA Recorder connected to Amplifier which is connected to the TV via an HDMI cable.

Type of the equipment	Maximum number
Recorder (DIGA Recorder, etc.)	3
Player (DVD Player, Blu-ray Disc Player, HD Video Camera, LUMIX Camera, Digital Camera, Player theatre, Blu-ray Disc theatre, etc.)	3
Audio system (Player theatre, Blu-ray Disc theatre, Amplifier, etc.)	1
Tuner (Set top box, etc.)	4

Link Functions (Q-Link / VIERA Link)

93

Q-Link

Preparations
- Connect the DVD Recorder / VCR with the following logos:
  "Q-Link", "NEXTVIEWLINK", "DATA LOGIC (a trademark of Metz Corporation)", "Easy Link (a trademark of Philips Corporation)", "Megalogic (a trademark of Grundig Corporation)", "SMARTLINK (a trademark of Sony Corporation)"
- Q-Link connection ➡ **(p. 92)**
- Use fully wired SCART cable.
- Set up the DVD Recorder / VCR. Read the manual of the recorder.
- Q-Link terminal setup in the Setup Menu ➡ **[AV1 out] (p. 45)**
- Download Analogue channel setting ➡ **"Analogue channel download" (see below)**

Features available

Analogue channel download

Analogue channel settings can be downloaded to a recorder with an analogue tuner (where Analogue is still broadcast). Digital channel settings are not downloaded.
- To download the Analogue channel settings
  ➡ **[Q-Link Download] (p. 45), [Auto Setup] (p. 16, 53)**

Direct TV Recording - What you see is What you record

Recording the current programme on a DVD Recorder / VCR immediately. (When USB HDD for recording is connected in DVB mode, [One Touch Recording] starts.)
- Confirm the code of the remote control to "73" (p. 34).

REC

AV (watching recorder's external input)	AV	Recorder's external input
AV (watching TV's external input)	AV	TV monitor out

- When Direct TV Recording is performed, the recorder is automatically turned on if it is in Standby mode.
- You can change channel or turn the TV off while the recorder is recording from its own tuner.
- Changing channel is not available while the recorder is recording from the TV tuner.

■ To stop recording

GUIDE

Unlock the tuner

Tuner Locked
Press EXIT to unlock and stop recording

EXIT

Power on link and Easy playback

When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

Power off link

When TV is set to Standby mode, the recorder is also automatically set to Standby. (Only when the videocassette or disc is not active.)
- This function works even if the TV enters Standby mode automatically by auto power standby function.

Note
- Some recorders are not applicable. Read the manual of the recorder.

Link Functions (Q-Link / VIERA Link)

94

VIERA Link "HDAVI Control™"*

*Enjoy additional HDMI Inter-Operability with Panasonic products which have "HDAVI Control" function.
This TV supports "HDAVI Control 5" function.
Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI and SCART cables allow you to interface them automatically (p. 92, 93).
These features are limited to models incorporating "HDAVI Control" and "VIERA Link".
- Some functions are not available depending on the equipment's version of HDAVI Control. Confirm the connected equipment's version of HDAVI Control.
- VIERA Link "HDAVI Control", based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added.
  As such, its operation with other manufacturers' equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for other manufacturers' equipment supporting VIERA Link function.
- For information about applicable Panasonic equipment, consult your local Panasonic dealer or refer to www.panasonic.co.uk

Preparations
- Connect the equipment supporting VIERA Link.
- VIERA Link connection ➡ **(p. 92, 93)**
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
  Recommended Panasonic's HDMI cable part number:
  • RP-CDHS15 (1.5 m)   • RP-CDHS30 (3.0 m)   • RP-CDHS50 (5.0 m)
- Use fully wired SCART cable.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Download Analogue channel setting ➡ **"Analogue channel download" (see below)**
- Set [VIERA Link] to [On] in the Setup Menu. ➡ **[VIERA Link] (p. 45)**
- Set up the TV.
  After connection, turn the equipment on and then switch the TV on.
  Select the input mode from HDMI1, HDMI2, HDMI3 or HDMI4 (p. 33), and make sure that an image is displayed correctly.
    This setup should be done each time when the following conditions occur:
    • for the first time
    • when adding or reconnecting equipment
    • when changing setup

Features available

Analogue channel download

Analogue channel settings can be downloaded to a recorder with an analogue tuner (where Analogue is still broadcast). Digital channel settings are not downloaded.
- To download the Analogue channel settings
  ➡ **[Q-Link Download] (p. 45), [Auto Setup] (p. 16, 53)**

Easy playback

Automatic input switching - When the connected equipment is operated (during playback or menu operations, etc.), the input mode is switched automatically. When playback is stopped or menus are exited, the input mode returns to the original setting.

Power on link

When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

Power off link

When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.
- This function will work even if the TV enters Standby mode automatically by auto power standby function.

Link Functions (Q-Link / VIERA Link)

Reduce unnecessary power consumption in Standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function ➡ [Standby Power Save] (p. 45)
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV on / off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption of the connected equipment is automatically minimised.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time fast.
● This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function ➡ [Intelligent Auto Standby] (p. 45)
When the TV is on, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI, the connected equipment will go into Standby mode / or when Speaker Selection is changed to [TV] (except for watching a disc).
● If you select [On (With reminder)], the on-screen message will be displayed before the connected equipment turns to standby.
● This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record [Direct TV Rec]

Records the current programme in the DIGA Recorder immediately.
● If you connect a variety of recorders including other manufacturers' recorders at the same time, connect the DIGA Recorder to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder to HDMI1.
● If you cannot operate, check the settings and the equipment.
 ➡ **"Summary of Q-Link and VIERA Link features" (p. 92, 93), "Preparations" (p. 95)**
● To record the programme which DIGA Recorder does not support, SCART connection is required and the programme is recorded by Q-Link function (p. 94).
● Depending on the programme, SCART connection may be required to record.
● You can change channel or turn the TV off while the recorder is recording from its own tuner.
● You can not change channel while the recorder is recording from the TV tuner.

1 Display [VIERA TOOLS] and select [VIERA Link]

VIERA TOOLS ➡ VIERA Link | PHOTO | VIDEO | RECORDED TV | MUSIC | MEDIA SERVER

MUTE

● The sound of TV speakers is mute.
● When the equipment is turned off, TV speakers will be active.

[TV]:
TV speakers are active.

Multi-channel sound

If you want to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect it with HDMI cable and Optical digital audio cable (p. 93), and then select [Home Cinema]. If your Amplifier has "HDAVI Control 5" function, you only need to connect it with HDMI cable to the TV's HDMI2 terminal.
To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 93).

  Note

● These functions may not work properly depending on the connected equipment.
● Image or sound may not be available for the first few seconds when input mode is switched.
● "HDAVI Control 5" is the newest standard (as of November, 2011) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
● To confirm this TV's version of HDAVI Control ➡ **[System Information] (p. 47)**

External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment.
For other connections, consult the instructions for each piece of equipment, the basic connection (p. 13 - 15), the table
(p. 102), and the specifications (p. 121 - 123).
● Check the type of terminals and cable plugs are correct when connecting.

Technical Information

Auto Aspect

The optimum size and aspect can be chosen automatically, and you can enjoy finer images.

■ Aspect Control Signal

[WIDE] will appear in the top left of the screen if a Widescreen signal (WSS) or a Control signal through SCART / HDMI terminal is found.
The aspect will switch to the appropriate 16:9 or 14:9 widescreen ratio.
This function will work in any aspect mode.

Input terminal	Input signal format	Aspect Control Signal	
		Widescreen signal (WSS)	Control signal through SCART (pin8) / HDMI terminal
RF	DVB	◯	
	PAL I	◯	
	PAL 525/60 6.0 MHz	–	
	M.NTSC 6.0 MHz	–	
Satellite	freesat, Other Sat. / Satellite	◯	
AV1 / AV2 (Composite)	PAL	◯	◯
	PAL 525/60	–	◯
	M.NTSC	–	◯
	NTSC	–	◯
AV2 (Component)	525 (480) / 60i, 60p	–	
	625 (576) / 50i, 50p	◯	
	750 (720) / 60p, 50p	–	
	1,125 (1,080) / 60i, 50i	–	
HDMI1 HDMI2 HDMI3 HDMI4	525 (480) / 60i, 60p	–	◯
	625 (576) / 50i, 50p	–	◯
	750 (720) / 60p, 50p	–	◯
	1,125 (1,080) / 60i, 50i	–	◯
	1,125 (1,080) / 60p, 50p, 24p	–	◯

■ Auto mode

Auto mode determines the best aspect ratio to fill the screen using a four step process (WSS, Control signal through SCART / HDMI terminal, Letterbox detection or Justify to fill the screen).
This process may take several minutes, depending on the darkness of the image.
Letterbox detection:
If black bands at the top and bottom of the screen are detected, Auto mode chooses the best ratio and expands the image to fill the screen.
If no aspect signals are detected, Auto mode enhances the image for optimum viewing pleasure.

Note

● The ratio varies depending on the programme, etc. If the ratio is out of the standard 16:9, black bands at the top and bottom of the screen may appear.
● If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. Read the manual of the VCR.

Technical Information

DivX

DivX Certified® to play DivX® and DivX Plus® HD (H.264/MKV) video up to 1080p HD including premium content.
ABOUT DIVX VIDEO:
DivX® is a digital video format created by DivX, LLC, a subsidiary of Rovi Corporation. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX videos.

■ Subtitle text file of DivX

Subtitles format - MicroDVD, SubRip, TMPlayer
● The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
● If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority:
 ".srt", ".sub", ".txt".
● To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
● Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

> **Note**

● Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be displayed in the order you numbered.
● Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
● When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information on how to complete your registration.

■ To show DivX VOD registration code

➡ **[DivX® VOD] (p. 47)**
● If you want to generate the new registration code, you have to deregister the current registration code.
 After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the current registration code.
 You will obtain the new registration code by pressing the OK button on the deregistration code screen.
● If you purchase DivX VOD content using a registration code different from this TV's code, you will not be able to play this content. ([Your device is not authorized to play this DivX protected video.] is displayed.)

■ Regarding DivX content that can only be played a set number of times

Some DivX VOD content can only be played a set number of times.
When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)
● When playing this content, the number of remaining plays is reduced by one in the following conditions:
 • If you exit the current application.
 • If you play the other content.
 • If you go to the next or previous content.

Technical Information

106

Devices for recording or playing back

■ SD Card

Card format:
  SDXC Card - exFAT
  SDHC Card / SD Card - FAT16 or FAT32
Compliant card type (maximum capacity):
  SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)

● If miniSD Card is used, insert / remove it together with the adaptor.
● Check the latest information on the card type at the following website.
  http://panasonic.jp/support/global/cs/tv/
● Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.
■ USB Flash Memory (for playing back in Media Player)

USB Flash Memory format: FAT16, FAT32 or exFAT
● A USB HDD formatted by PC is not guaranteed in Media Player.

■ USB HDD (for recording the digital TV programmes with this TV and playing back in Media Player)

The capacity of USB HDD that has been tested for the performance with this TV is from 160 GB to 3 TB.
● Connect the USB HDD to the socket outlet to record and play back properly with this TV.
● Use the USB HDD formatted with this TV. ➡ **(p. 70)**
● Regarding the performance, not all USB HDDs are guaranteed. Check the USB HDDs that have been tested for the performance with this TV at the following website.
  http://panasonic.jp/support/global/cs/tv/

(Note)
● Data modified with a PC may not be displayed.
● Do not remove the device while the TV is accessing data. Otherwise this can damage device or TV.
● Do not touch the pins on the device.
● Do not subject the device to a high pressure or impact.
● Insert the device in the correct direction. Otherwise this can damage device or TV.
● Electrical interference, static electricity, or erroneous operation may damage the data or device.
● Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. Panasonic is not liable for any deterioration or damage of recorded data.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.
● A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.
● Some PC models cannot be connected to this TV.
● When using PC, set the colour display quality of PC to the highest position.
● For details of the applicable PC signals
  ➡ **"Input signal that can be displayed" (p. 109)**
● D-sub 15-pin connector signal

● Max. display resolution

4:3	1,440 × 1,080 pixels
16:9	1,920 × 1,080 pixels

HDMI connection

HDMI (high-definition multimedia interface) is the world's first complete digital consumer AV interface complying with a non-compression standard.
HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.
HDMI-compatible equipment*[1] with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.
For more information about connections ➡ **(p. 14, 100)**

■ Applicable HDMI features

- Input audio signal:
  2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal:
  ➡ **"Input signal that can be displayed" (p. 109)**
  Match the output setting of the digital equipment.
- Input PC signal:
  ➡ **"Input signal that can be displayed" (p. 109)**
  Match the output setting of the PC.

- VIERA Link (HDAVI Control 5)
  ➡ **[VIERA Link] (p. 95)**
- 3D
- Content Type
- Deep Colour
- Audio Return Channel*[2]
  (HDMI2 terminal only)

■ DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*[3].
When the DVI to HDMI adaptor cable is used, connect the audio cable to AUDIO terminal with the supplied AV2 (COMPONENT / VIDEO) adaptor.

> **Note**
> - Audio settings can be made on [HDMI1 / 2 / 3 / 4 Input] in the Sound Menu. (p. 43)
> - If the connected equipment has an aspect adjustment function, set the aspect ratio to "16:9".
> - These HDMI connectors are "type A".
> - These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
> - Equipment having no digital output terminal may be connected to the input terminal of component or video to receive analogue signals.
> - This TV incorporates HDMI™ technology.

*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.

USB connection

- It is recommended to connect the USB HDD, USB Flash Memory or Communication Camera to the TV's USB ports directly.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory or USB HDD.
- Additional information for USB devices may be on the following website.
  http://panasonic.jp/support/global/cs/tv/

■ USB Keyboard

- The USB Keyboard requiring its driver is not supported.
- To change the language type ➡ **[USB Keyboard Layout] (p. 47)**
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
- Some of the keys of USB keyboards may correspond to the operation of the remote control.

USB Keyboard	Remote Control	USB Keyboard	Remote Control
↑ / ↓ / ← / →	Cursor buttons	F2	VIERA TOOLS
Enter	OK	F3	MENU
Backspace	BACK/RETURN	F4	INPUT (AV)
Esc	EXIT	F5 / F6	Channel Down / Up
0 - 9 / Character	Numeric buttons	F7 / F8	Volume Down / Up
F1	GUIDE	F9 / F10 / F11 / F12	Coloured buttons

Technical Information

108

■ Gamepad

- Check the gamepads that have been tested for the performance with this TV at the following website.
  http://panasonic.jp/support/global/cs/tv/
- Some of the keys of gamepads correspond to the operation of the remote control.

Example:
	Remote Control		Remote Control
1	Volume Up / Down	7	VIERA TOOLS
2	Channel Up / Down	8	EXIT
3	GUIDE	9	INPUT (AV)
4	OK		
5	BACK/RETURN	10	MENU
6	INTERNET	11	Cursor buttons

Input signal that can be displayed

■ COMPONENT (Y, P_B, P_R) (from AV2 terminal), HDMI

Signal name	COMPONENT	HDMI
525 (480) / 60i, 60p	◯	◯
625 (576) / 50i, 50p	◯	◯
750 (720) / 60p, 50p	◯	◯
1,125 (1,080) / 60i, 50i	◯	◯
1,125 (1,080) / 60p, 50p, 24p		◯

◯ : Applicable input signal

■ PC (from D-sub 15P)

Signal name	Horizontal frequency (kHz)	Vertical frequency (Hz)
640 × 480 @60 Hz	31.47	59.94
800 × 600 @60 Hz	37.88	60.32
852 × 480 @60 Hz	31.44	59.89
1,024 × 768 @60 Hz	48.36	60.00
1,280 × 768 @60 Hz	47.70	60.00
1,280 × 1,024 @60 Hz	63.98	60.02
1,366 × 768 @60 Hz	48.39	60.04

Applicable input signal for PC is basically compatible to VESA standard timing.

■ PC (from HDMI terminal)

Signal name	Horizontal frequency (kHz)	Vertical frequency (Hz)
640 × 480 @60 Hz	31.47	60.00
1,280 × 720 @60 Hz	45.00	60.00
1,920 × 1,080 @60 Hz	67.50	60.00

Applicable input signal for PC is basically compatible to HDMI standard timing.

Note

- Signals other than above may not be displayed properly.
- The above signals are reformatted for optimal viewing on your display.
- PC signal is magnified or compressed for display, so that it may not show fine detail with sufficient clarity.

How to use Windows 7 as a media server

Follow the examples below to set up Windows 7 for use as a media server.
Confirm the MAC Address of VIERA in [Network Status] (p. 44).
The following procedure and screens are examples. For more information, refer to the help functions of Windows 7.
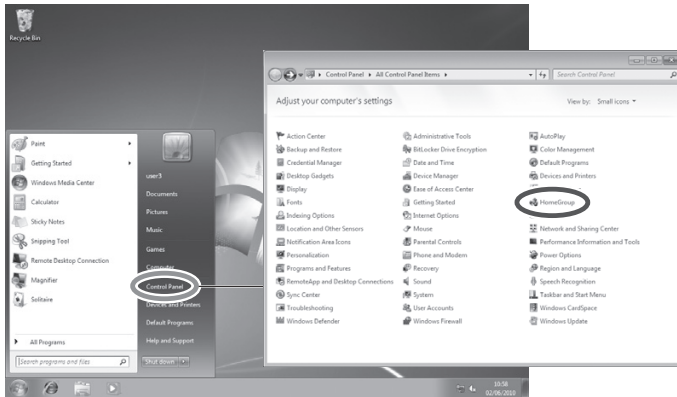

① Open the Windows start menu and select [Control Panel]. Select [HomeGroup] in Control Panel window.
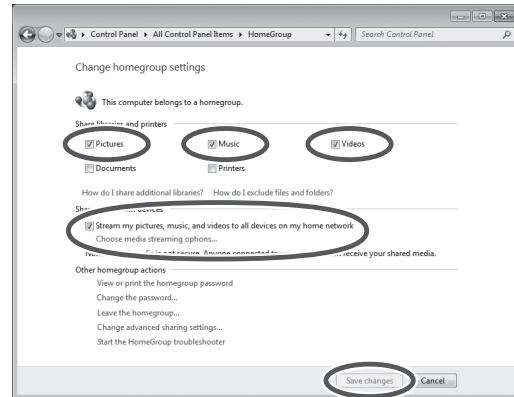

② Be sure [Pictures], [Music] and [Videos] of "Share libraries and printers" and [Stream my pictures, music, and videos to all devices on my home network] of "Share media with devices" are checked. (Check them and click [Save changes] if necessary). Then select [Choose media streaming options...].
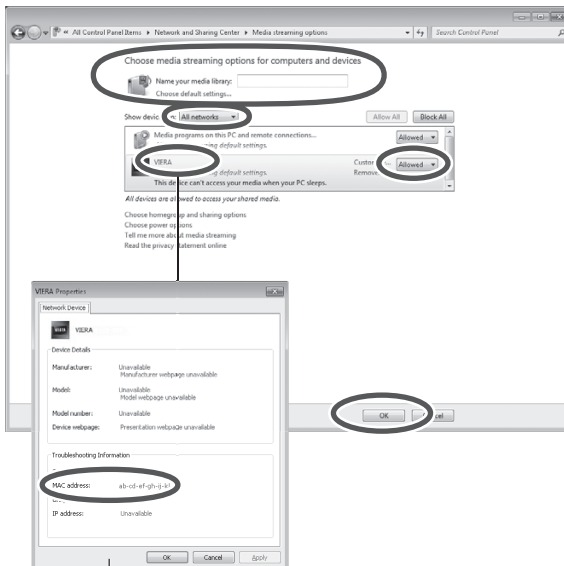

property window

③ In [Name your media library:] text box, enter a name that will identify your PC on VIERA.
On the Show devices drop bar, select [All networks] to display all the available devices in the list. VIERA Name stored in [Network Link Settings] (p. 85) will be displayed. Select the VIERA Name and click [Allowed] so that VIERA can access your PC.
Then, click [OK].
If the VIERA Name is not displayed correctly, click the device to confirm the MAC address of the device in property window. Find a device that has the same MAC address as VIERA: that is your VIERA.
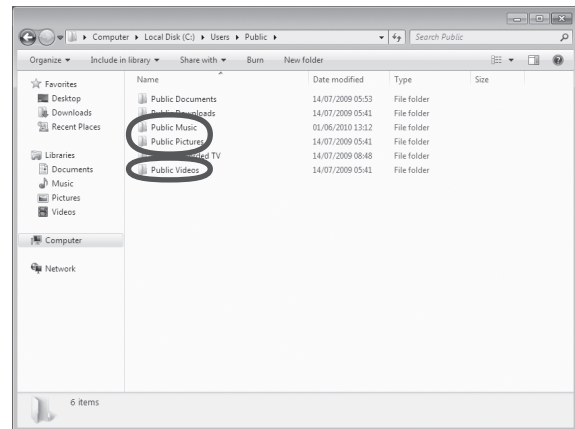

④ To share photos, music and videos with VIERA, put photo files into [Public Pictures] folder and video files into [Public Videos] folder under \Computer\Local Disk (C:)\Users\Public.

FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem.
If the problem still persists, please contact your local Panasonic dealer for assistance.

Block noise, frozen or disappearing image occurs in DVB mode / White spots or shadow image (ghosting) occurs in Analogue mode / Some channels cannot be tuned
- Check the position, direction and connection of the aerial.
- Check [Signal Condition] (p. 57). If [Signal Quality] is displayed in red, the DVB signal is weak.
- Check your postcode area is able to receive the Freeview channels at www.freeview.co.uk
- Digital signals may be relatively low to prevent interference with analogue signals for the period of Digital Switchover. Check the schedule of Digital Switchover at www.digitaluk.co.uk
- Weather conditions will affect signal reception (heavy rain, snow, etc.), in particular in poor reception areas. Even during good weather, the high pressure can cause poor reception of some channels.
- Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
- Turn the TV off with the Mains power On / Off switch, and then on again.
- If problem persists, consult your local dealer or service provider for the availability of services.

freesat Auto Setup cannot be done completely
- Check connections and dish alignment. The dish needs to be pointing at Astra2 at 28.2° East, and Eurobird1 at 28.5° East.
- If the problem persists, consult your freesat registered retailer or call Freesat (UK) Ltd on **08450 990 990** or **visit www.freesat.co.uk**

Neither image nor sound is produced
- Check the TV is turned on.
- Check the mains lead is plugged into the TV and the socket outlet.
- Check the TV is in AV mode.
- Check the correct input mode is selected.
- Check the Picture Menu (p. 41, 42) and volume.
- Check all required cables and connections are firmly in place.

Auto aspect
- Auto aspect is designed to provide you with the best ratio to fill the screen. ⇒ **(p. 103)**
- Press the ASPECT button if you want to change the aspect ratio manually. ⇒**(p. 24)**

Black and white picture
- Check that the output of the external equipment matches the input of the TV.
  When connecting with SCART, ensure the output setting of the external equipment is not S-Video.

Q-Link function does not work
- Confirm SCART cable and connection.
  Also set [AV1 out] in the Setup Menu. ⇒ **(p. 45)**

[VIERA Link] function does not work and an error message appears
- Confirm the connection. ⇒**(p. 92, 93)**
- Turn the connected equipment on and then switch the TV on. ⇒ **(p. 95)**

Recording does not start immediately
- Check the settings of the recorder. For details, read the manual of the recorder.

There may be red, blue, green and black spots on the screen
- This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, green, blue or black. Please note this does not affect the performance of your LCD.

Problem	Causes / Actions
Screen	
Chaotic image, noisy	• Set [P-NR] in the Picture Menu to remove noise. ➡ **(p. 41)** • Check nearby electrical products (car, motorcycle, fluorescent lamp).
No image can be displayed	• Is [Contrast], [Brightness] or [Colour] in the Picture Menu set to the minimum? ➡ **(p. 41)** • Check the setting of [AV2] ([COMPONENT] / [VIDEO]) in [Input Selection] to match the output of the external equipment. (p. 33)
Blurry or distorted image (no sound or low volume)	• Reset channels. ➡ **(p. 52, 53)**
Unusual image is displayed	• Turn the TV off with Mains power On / Off switch, then turn it on again. • If the problem persists, initialise all settings. ➡ **[Shipping Condition] (p. 63)**
Sound	
No sound is produced	• Is "Sound mute" active? ➡**(p. 11)** • Is the volume set to the minimum?
Sound level is low or sound is distorted	• Sound signal reception may be deteriorated. • Set [NICAM] (p. 43) in the Sound Menu to [Off]. (Analogue)
3D	
Cannot view 3D images	• Has the 3D Eyewear been switched on, set to 3D mode and registered with this TV? For details, read the manual of the 3D Eyewear. • Check the remaining battery level of the 3D Eyewear. (Battery status is displayed on the screen when the 3D Eyewear is turned on.) • Does the 3D Eyewear support Bluetooth wireless technology? ➡ **(p. 35)** • Ensure that [3D Mode Selection] is set to [3D]. ➡ **(p. 36)** • Some 3D image signals may not be automatically recognised as 3D images. Set [3D Mode Selection (Manual)] to match the picture format. ➡ **(p. 37)** • Use the 3D Eyewear within approximately 3.2 m from the TV. • Check that there are no obstacles between the TV and the 3D Eyewear. • For some people, the 3D images may be difficult to see, or cannot be seen, especially in users who have a different level of eyesight between the left and right eyes. Take the necessary steps (wearing glasses etc.) to correct your eyesight before use.
3D Eyewear is turned off automatically	• Check that there are no obstacles between the TV and the 3D Eyewear.
There is something wrong with the 3D images	• Check the setting of [Picture Sequence] or [Edge Smoother]. ➡ **(p. 38)**
The indicator lamp does not light when pressing the power button on the 3D Eyewear	• The battery may be running low or flat. Recharge it.
Digital Channel	
No programmes shown on TV Guide	• Reset channels. ➡ **(p. 52, 53)** • Check the digital transmission by contacting Digital UK on 08456 50 50 50 or at www.digitaluk.co.uk • Check the analogue broadcast (if still available in your area). • Consult an aerial or dish engineer to check the alignment of your aerial or dish.
Cannot find a channel you have previously watched	• The channel may broadcast for part of the day. • Check the channel in the TV Guide. ➡**(p. 25)** • Channel position numbers may be changed by broadcasters. • Reset channels. ➡ **(p. 52, 53)**
HDMI	
Sound is unusual	• Set the sound setting of the connected equipment to "2ch L.PCM". • Check the [HDMI1 / 2 / 3 / 4 Input] setting in the Sound Menu. ➡ **(p. 43)** • If digital sound connection has a problem, select analogue sound connection. ➡ **(p. 108)**
Pictures from external equipment are unusual when the equipment is connected via HDMI	• Check the HDMI cable is connected properly. ➡ **(p. 100)** • Turn the TV and equipment off, then turn them on again. • Check an input signal from the equipment. ➡ **(p. 109)** • Use equipment compliant with EIA/CEA-861/861D.

113

Problem		Causes / Actions
Network	**Cannot connect to the network**	● Check the LAN cable or wireless LAN is connected properly. ➡ **(p. 84)** ● Check the connections and settings. ➡ **(p. 84 - 88)** ● Check the network equipment and network environment. ● The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually. ➡ **(p. 86)** ● The router may be using MAC address filtering (security setting). Confirm the MAC Address of this TV (p. 44) and set the router to use it. ● If the problem persists, consult your Internet Service Provider or telecommunications company.
	Cannot select the file during DLNA operations	● Is media server of the connected equipment prepared? ➡**(p. 83)** ● Check applicable data format. ➡ **(p. 104, 105)**
	Cannot operate VIERA Connect	● Check the connections and settings. ➡ **(p. 84 - 88)** ● The server or connected line may be busy now.
Other	**The TV does not switch on**	● Press and hold the Standby On / Off switch on the remote control for about 1 second if Power LED is red. ● Check the mains lead is plugged into the TV and the socket outlet. ● The fuse in the mains plug may have blown. Replace it with one of an identical rating. ➡**(p. 4)**
	The TV goes into Standby mode	● Auto power standby function is activated. ➡**(p. 12)** ● The TV enters Standby mode about 30 minutes after analogue broadcasting ends.
	The remote control does not work or is intermittent	● Are the batteries installed correctly? ➡ **(p. 8)** ● Has the TV been switched on? ● The batteries may be running low. Replace them. ● Point the remote control directly at the TV's remote control signal receiver (within about 7 m and a 30 degree angle of the signal receiver). ● Situate the TV away from sunshine or other sources of bright light not to shine on the TV's remote control signal receiver.
	The LCD panel moves slightly when it is pushed with a finger **Clattered sound might be heard**	● There is some flexibility around the panel to prevent damage to the panel. ● The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction.
	Overcurrent error message appears	● The connected USB device might cause this error. Remove the device and turn the TV off with Mains power On / Off switch, then turn it on again. ● Check foreign objects are not inside the USB port.
	An error message appears	● Follow the message's instructions. ● If the problem persists, contact your local Panasonic dealer or the authorised service centre.

On-screen messages

Message	Meaning / Action
All tuning data will be erased	● [Shipping Condition] will erase all tuning data. ➡ **(p. 63)**
Are you sure ?	● Confirm correct operation.
Are you sure you want to delete this timer ? **Press OK to delete timer.** **Press RETURN to return.**	● Confirm correct operation.
Bad signal	● The signal is weak. Check the aerial / dish is plugged in properly. It may be necessary to have an aerial / dish installer check the signal and aerial / dish alignment. ● Reset channels. ➡ **(p. 52, 53)**
Child Lock is active! **Press OK to enter PIN.**	● The selected channel is locked in Child Lock (p. 62). You must enter the PIN number before the channel will be displayed.
External Recording Due to Start	● This message will appear 2 minutes before timer programming event for external recording due to start.

114

Message	Meaning / Action
Faulty dish	● The satellite cable might be short-circuited or there might be connection problems of the cable. Check the cable and connection and then turn the TV off with the Mains power On / Off switch, and turn it on again. ● If the message still persists, consult a dish installer for checking the dish and cable.
Feature not available.	● It is not possible to record from AV2 (COMPONENT) or HDMI. Connect the recorder to the TV using a fully wired SCART cable for recording from the TV tuner. ● Confirm Q-Link or VIERA Link settings. ➡ **(p. 92 - 95)**
Feature not available. Press OK to view how it works.	● The selected feature on VIERA TOOLS is not available. Press the OK button to view the demonstration to explain how to use it.
Found new software version ✳✳✳. Press OK to start update (may take over 40 mins) or press EXIT to ignore and you can update when TV is in standby	● There is a new software available.
Invalid operation - Please check settings and connections.	● Check the Q-Link or VIERA Link connection and setting. ➡ **(p. 92 - 95)**
Invalid system time. Please exit !	● Cannot get the time information and cannot edit Timer Programming screen. Check the connection of the RF cable.
Invalid system time, Timer Programming will not work. Please press TV button on remote control and check time display on Banner	● Cannot get the time information. If there is no time displayed on the Information banner, check the connection of the RF cable.
Max. number of timers already set !	● The maximum number of timer programming events is 15.
New channels found! Press OK to update channel list. Press EXIT to ignore.	● There may be new channels available. ● This message will appear each time a change is made by the broadcasters. This message can be deactivated by setting [New Channel Message] to [Off] in [DVB Tuning Menu]. Selecting OK will perform [Update Channel List].
No channel found. Please check aerial or local signal availability. Press OK to start Auto Setup.	● Follow the on-screen instructions. ● Please also refer to p. 112. ● If channels are still not found, consult your local Panasonic dealer.
No module inserted	● Check the CI module is inserted completely (p. 65).
No recording - Already recording	● The equipment may already be recording.
No recording - Check media	● The tape or disc may be "write protected", full, missing or damaged.
No recording - Playing	● The equipment may be playing the tape or disc.
No recording - Unknown reason	● The recording may not be performed. Check the equipment.
No service	● The broadcaster has stopped the service. Check the channel in the TV Guide. (p. 25)
No signal	● The TV cannot detect the signal. Check the connection of the RF cable.
Overcurrent error on USB device occurred. Please remove the USB device, and switch off the TV by mains power switch.	● The connected USB device might cause overcurrent error. Follow the on-screen instructions. ● Check if foreign objects are inside the USB port.
PIN incorrect!	● The PIN number you entered is wrong.
Please check settings and connections on HDMI devices.	● Communication error in VIERA Link function (p. 95).
Please enter a frequency between 10700 and 12750 MHz.	● The frequency you entered is out of range. Consult the received satellite broadcasting company. (p. 59)
Please wait.	● A function is in progress.

On-screen messages

115

Message	Meaning / Action
Recording this channel now	● The recorder is recording the programme from its own tuner. You can turn the TV off and leave the equipment recording in the normal way.
Reset to Factory Shipping Condition Completed. TV will automatically restart. Do not turn off	● [Auto Setup] will automatically start (p. 16).
Sending Preset Data	● Q-Link or VIERA Link channel download is in progress.
Software successfully updated. Press EXIT to continue.	● The software updating is finished.
Software update failed. Please try again later. Press EXIT to continue.	● Perform [System Update Search Now] in System Update (p. 66). If this is still unsuccessful, there may not be any new software available.
The device is not directly connected to the TV. The device may not work correctly.	● Please do not connect the device via a USB HUB.
This device will be formatted and all contents deleted. Are you sure?	● Once you format the USB HDD, all the recorded programme will be erased.
This timer will not follow the TV Guide information. Press OK to continue, RETURN to restore original timer.	UK only ● If you edit the start time or end time of Guide link programming by more than 10 minutes, it will no longer be performed as Guide link programming. The programming will be performed according to the time setting.
Timer already expired !	● The starting time in Timer Programming has already passed. Set the timer correctly (p. 60).
Timer incorrect !	● Set the start and end times in Timer Programming correctly (p. 60).
Timer overlap. Press OK to keep, RETURN to edit.	● Timer programming events are overlapped. Press the OK button to keep the overlapped setting. [Ext Rec.] and [USB HDD Rec.] are given priority over [Reminder]. When two or more [Ext Rec.] / [USB HDD Rec.] overlap, the first timer programming event starts and finishes as programmed. The next timer programming event can then start.
Tuner Locked Press EXIT to unlock and stop recording	● If you want to unlock the tuner, cancel Direct TV Recording (p. 94, 96), the recording of Timer Programming (p. 60) or One Touch Recording.
Unable to download, please check equipment	● The tape or disc is active. Stop the equipment and try again.
3D image not available.	● You may use a function not available for 3D effect. Exit the function to view the 3D images.

■ Media Player / Network

Message	Meaning / Action
An internal error occurred.	● Check the settings. (p. 85 - 88)
Cannot read file	● The file is broken or unreadable. Check applicable data format. (p. 104, 105)
Communication with the server failed.	● This might be a problem of the media server. Read the manual of the server software.
Connection to the server failed.	● Check the connections and settings. (p. 84 - 88)
Ethernet cable not connected	● Check the connection of the LAN cable. If you use a hub, also check the light on the hub is lit. ● The LAN cable might be defective.
No Device Inserted	● Confirm the SD Card or USB device is inserted correctly.
No valid file to play	● The card has no data.
Server not found	● There are no available media server on your home network. Check the connections and settings. (p. 84 - 88)
The software update is not completed.	● Network download failed. Check the connections and settings. (p. 84 - 88)
This operation is not possible	● The selected operation is not available.

116

Maintenance

First, remove the mains plug from the socket outlet.

Display panel, Cabinet, Pedestal

Regular care:
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:
First clean the dust on the surface. Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Wring the cloth and wipe the surface. Finally, wipe away all the moisture.

Caution
- Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.
- Take care not to subject the TV's surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

Mains plug

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.

Glossary

DLNA
Digital Living Network Alliance

DVI
Digital Visual Interface - A high quality video interface standard to connect to the display

ETHERNET
One of the popular standards of LAN

EPG
Electronic Programme Guide - A digital guide showing scheduled programmes

Frame Sequential
The 3D format that the separated images for the left and right eyes are recorded with the high definition quality and alternately played back at the high speed

HDMI
High-Definition Multimedia Interface - A digital audio and video interface for transmitting uncompressed digital signals on a single cable

LAN
Local Area Network

MAC Address
Media Access control Address

NICAM
Near Instantaneous Companded Audio Multiplex - A format for digital sound over television

NTSC
National Television System Committee - One of the television signals used in USA, etc.

RF
Radio Frequency - Signal received from terrestrial aerial

SCART
21 pin connection used for video, audio and switching signals (Also known as Euro SCART and Peritel)

Shop viewing environment
Shop viewing environment is the demonstration mode to explain main features of this TV in an easy understandable way. This mode will work if you select [Shop] in "Auto Setup" (p. 19).

Side by Side
One of the types of 3D format available for broadcasts

SPDIF
A standard audio transfer file format

Top and Bottom
One of the types of 3D format available for broadcasts

USB
Universal Serial Bus - An interface specification to connect devices

VCR
Video Cassette Recorder

24p
Progressive images recorded at a rate of 24 frames per second (film source)

Specifications

■ **Product fiche**

Manufacturer	Panasonic Corporation		
Model No.	**TX-L42DT50B**	**TX-L47DT50B**	**TX-L55DT50B**
Energy efficiency class	A+	A+	A+
Visible screen size (diagonal)	107 cm / 42 inches	119 cm / 47 inches	139 cm / 55 inches
On mode average power consumption	56 W	69 W	91 W
Annual energy consumption[1]	78 kWh	95 kWh	127 kWh
Rated power consumption	116 W	129 W	149 W
Standby power consumption[2]	0.20 W		
Off mode power consumption	0.18 W		
Display resolution	1,920 (W) × 1,080 (H)		

■ **Other information**

Model No.	**TX-L42DT50B**	**TX-L47DT50B**	**TX-L55DT50B**
Power source	AC 220-240 V, 50 / 60 Hz		
Panel	LED LCD panel		
Dimensions (W × H × D)	958 mm × 615 mm × 258 mm (With Pedestal) 958 mm × 569 mm × 27 mm (TV only)	1,067 mm × 677 mm × 265 mm (With Pedestal) 1,067 mm × 631 mm × 27 mm (TV only)	1,237 mm × 773 mm × 290 mm (With Pedestal) 1,237 mm × 726 mm × 27 mm (TV only)
Mass	14.5 kg Net (With Pedestal) 11.0 kg Net (TV only)	17.0 kg Net (With Pedestal) 13.0 kg Net (TV only)	22.5 kg Net (With Pedestal) 17.0 kg Net (TV only)
Sound	**Speaker**	8 train speakers × 2, Woofer (Φ 75 mm) × 1		
	Audio output	18 W (4 W + 4 W + 10 W)		
	Headphones	M3 (3.5 mm) stereo mini Jack × 1

Receiving systems / Band name
 	
Check the latest information on the available services at the following website. http://panasonic.jp/ support/global/cs/tv/
	UK	**DVB-S / S2** (freesat Other Sat.)	freesat services via Satellite dish input.
			Receiver frequency range - 950 MHz to 2,150 MHz
			LNB Power and Polarisation - Vertical: +13 V
			         Horizontal: +18 V
			         Current: Max. 500 mA (overload protection)
			22 kHz Tone - Frequency: 22 kHz ± 2 kHz
			       Amplitude: 0.6 V ± 0.2 V
			Symbol Rate - Max. 30 MS/s
			FEC Mode - 1/2, 3/5, 2/3, 3/4, 4/5, 5/6, 8/9, 9/10
			Demodulation - QPSK, 8PSK
			Not available for DiSEqC control.

		DVB-T / T2	Digital terrestrial services.
		PAL I	UHF E21 - 68
		PAL 525/60	Playback of NTSC tape from some PAL Video recorders (VCR) or NTSC disc playback from DVD player and recorder.
		M.NTSC	Playback from M.NTSC Video recorders (VCR).
		NTSC (AV input only)	Playback from NTSC Video recorders (VCR).

	Ireland	**DVB-S / S2**	Receiver frequency range - 950 MHz to 2,150 MHz
			LNB Power and Polarisation - Vertical: +13 V
			         Horizontal: +18 V
			         Current: Max. 500 mA (overload protection)

		DVB-T	Digital terrestrial services.
		PAL I	VHF A - J UHF E21 - E69 CATV S1 - S20 CATV S21 - S41 (Hyperband)
		PAL 525/60	Playback of NTSC tape from some PAL Video recorders (VCR) or NTSC disc playback from DVD player and recorder.
		M.NTSC	Playback from M.NTSC Video recorders (VCR).
		NTSC (AV input only)	Playback from NTSC Video recorders (VCR).
Satellite dish input			Female F-type 75 Ω
Aerial input			UK UHF Ireland VHF / UHF
Operating conditions			**Temperature:** 0 °C - 35 °C **Humidity:** 20 % - 80 % RH (non-condensing)
Connection terminals	**AV1 input / output**		**SCART** (Audio/Video in, Audio/Video out, RGB in, Q-Link)
	AV2 input (COMPONENT / VIDEO)	**VIDEO**	RCA PIN Type × 1 1.0 V[p-p] (75 Ω)
		AUDIO L - R	RCA PIN Type × 2 0.5 V[rms]
		Y **P_B, P_R**	1.0 V[p-p] (including synchronisation) ±0.35 V[p-p]
	HDMI 1 / 2 / 3 / 4 input		TYPE A Connectors HDMI1 / 3 / 4: 3D, Content Type, Deep Colour HDMI2: 3D, Content Type, Audio Return Channel, Deep Colour ● This TV supports "HDAVI Control 5" function.

122

Connection terminals	**PC**	HIGH-DENSITY D-SUB 15PIN R,G,B: 0.7 V[p-p] (75 Ω) HD, VD: TTL Level 2.0 – 5.0 V[p-p] (high impedance) ● Applicable input signals: VGA, SVGA, WVGA, XGA, SXGA, WXGA
	Card slot	SD Card slot × 1 Common Interface slot (complies with CI Plus) × 1
	ETHERNET	RJ45, IEEE802.3 10BASE-T / 100BASE-TX
	USB 1 / 2 / 3	USB2.0 DC 5 V, Max. 500 mA
	DIGITAL AUDIO OUT	PCM / Dolby Digital / DTS, Fibre optic
Built-in wireless LAN	**Standard compliance and Frequency range**[*3]	IEEE802.11a/n 5.180 GHz - 5.320 GHz, 5.500 GHz - 5.580 GHz, 5.660 GHz - 5.700 GHz IEEE802.11b/g/n 2.412 GHz - 2.472 GHz
	Security	WPA2-PSK (TKIP/AES) WPA-PSK (TKIP/AES) WEP (64 bit/128 bit)
Bluetooth wireless technology[*4]	**Standard Compliance**	Bluetooth 3.0
	Frequency Range	2.402 GHz - 2.480 GHz

*1: Energy consumption XYZ kWh per year, based on the power consumption of the television operating 4 hours per day for 365 days. The actual energy consumption will depend on how the television is used.
*2: when the TV is turned off with the remote control and no function is active
*3: The frequency and channel differ depending on the country.
*4: Not all the Bluetooth compatible devices are available with this TV.

Note
● Design and Specifications are subject to change without notice. Mass and Dimensions shown are approximate.
● This equipment complies with the EMC standards listed below.
  EN55013, EN61000-3-2, EN61000-3-3, EN55020, EN55022, EN55024

Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union

If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]

These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):

This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Sales and Support Information

Customer Communications Centre
- For customers within the UK: **0844 844 3899**
- For customers within Ireland: **01 289 8333**
- For further support on your product, please visit our website: **www.panasonic.co.uk**

Direct Sales at Panasonic UK
- Order accessory and consumable items for your product with ease and confidence by phoning our Customer Communications Centre.
  Monday − Thursday 9:00am − 5:30pm, Friday 9:30am − 5:30pm (Excluding public holidays)
